2022-2023

As of 10/21/22

Accuracy Statement

The Los Angeles City College (LACC) catalog contains the academic and administrative policies and regulations that govern enrollment of students at LACC. Students are responsible for knowing the academic and administrative policies and regulations affecting their program of study and for abiding by all such policies and regulations during their period of enrollment at the college.

The college catalog is not an offer to enter into a contract. Although the college strives to assure the accuracy of the information in this catalog, the college and Los Angeles Community College District (LACCD) reserve the right to make modifications and updates as necessary.

Catalogs are published for each academic year. The catalog's academic year is indicated in the catalog's title (for example, 2021-2022). Addenda to the catalog are published to include mid-year changes.

This new catalog takes effect at the start of the Fall 2022 semester.

Student Responsibility To Be Informed

While LACC provides numerous support services to assist students, it remains the responsibility of the student to be familiar with the information presented in this catalog and to know and observe all policies and procedures.

Regulations will not be waived, and exceptions will not be granted if a student pleads ignorance of policies or procedures.

Catalog Rights and Continuous Attendance

College catalogs cover an academic year that reflects enrollment beginning with the fall term and includes subsequent winter, spring and summer terms. Having "Catalog Rights" means students are held to the graduation requirements listed in the catalog at the time enrollment begins in the Los Angeles Community College District (LACCD). A student remaining in continuous attendance in the LACCD colleges may elect to satisfy the program requirements in effect at the college from which the student will earn his/her degree, certificate:

- At the time the student began attendance in the LACCD; or
- At the time all graduation requirements are met; or
- Any intervening catalog term between the time the student began continuous attendance and the time all graduation requirements were met.

"Continuous attendance" means attending at least one term (fall, winter, spring, summer) each academic year at any of the LACCD colleges. Courses with a "W" (withdrawal) count towards determining continuous attendance.

Students granted a "MW" (military withdrawal) or an "EW" (excused withdrawal) under the provisions of BP 4230 Grading and Academic Record Symbols, will be considered to be in "continuous attendance" for their required period of military service or excused withdrawal.

Alternative Publication Formats

Students with verifiable disabilities who require alternate formats of college publications should contact the Vice President of Student Services at (323) 953-4000 ext. 2460. The college will provide information in alternate text formats upon request in the time-liest manner possible.

ABOUT LACC

Who We Are

Los Angeles City College is The City's College.

LACC has been part of the fabric of the city of Los Angeles for more than 90 years, with both UCLA and Cal State Los Angeles originating on the LACC campus. As a diverse college and a vehicle for increasing social and economic mobility for our city, LACC remains the destination for students to believe, achieve, and succeed.

Established in 1929, LACC is one of the oldest of the California Community Colleges. Located in the heart of Hollywood on 49 acres, LACC provides a dynamic innovative learning environment offering more than 100 vocational and professional programs including degrees, transfer programs, and certificates to more than 18,000 students. Our student body is one of the most diverse in the country. Students range in age from late teens to seniors and come from every ethnic group, culture, and country in the world.

Since its opening, LACC has always risen to the challenges presented by a world undergoing rapid and confusing changes.

During the COVID-19 pandemic, we led the Los Angeles Community College District in enrollment and continued to provide an innovative and engaging learning environment offering degrees, transfer programs, and certificates to our students. We re-imagined remote education; expanded services to students in need of food, emergency financial aid, laptops, and services; and implemented initiatives to continue to fulfill our commitment in the pursuit of racial and social justice. We are currently back on campus with classes as well as online and we remain committed to helping students achieve their educational and personal goals.

As The City's College, we are committed to providing a welcoming, inclusive, supportive, and accepting community where all who come feel as if they belong.

History

One of nine college campuses of the Los Angeles Community College District, what is now LACC was originally a farm outside of Los Angeles. When the Pacific Electric Interurban Railroad connected downtown Los Angeles and Hollywood in 1909, the area began to develop rapidly. In 1914, the Los Angeles Board of Education moved the California State Normal School, a school to train teachers, from downtown Los Angeles to Vermont Avenue in Hollywood.

In 1917, UC Regent Edward A. Dickson and Ernest Carroll Moore, Director of the Normal School, began working together to lobby the State for the second University of California campus. On May 23, 1919, their efforts were rewarded when Governor William D. Stephens signed Assembly Bill 626 into law, which turned the school facilities into the Southern Branch of the University of California and added its general undergraduate program, the College of Letters and Science. The Southern Branch campus opened on September 15 of that year, offering two-year undergraduate programs to 250 Letters and Science students and 1,250 students in the Teachers College.

In need of more space, the Southern Branch of the University of California, what is today UCLA, moved to its present location in 1929 and the LA Board of Education bought the Vermont site.

On September 9, 1929, Los Angeles Junior College opened its doors for the first time with over 1,300 students and 54 teachers. It later changed its name in 1938 to Los Angeles City College.

Student Right-To-Know Disclosure

In compliance with the Student Right-to-Know and Campus Security Act of 1990 (Public Law 101-542), it is the policy of our college district to make available its completion and transfer rates to all current and prospective students. Beginning in Fall 2017, a cohort of all certificate-, degree-, and transfer-seeking first-time, full-time students were tracked over a three-year period. Their completion and transfer rates are listed above. These rates do not represent the success rates of the entire student population at the College nor do they account for student outcomes occurring after this three year tracking period.

For the Fall 2017 cohort (first-time, full-time students seeking a certificate, degree, or transfer; tracked over three years):

- Completion rate: 25.45%
- Transfer rate: 10.13%

Based upon the cohort defined above, a Completer is a student who attained a certificate or degree or became 'transfer prepared' during a three-year period, from Fall 2017 to Spring 2020. Students who have completed 60 transferable units with a GPA of 2.0 or better are considered 'transfer prepared'. Students who transferred to another post-secondary institution, prior to attaining a degree, certificate, or becoming 'transfer prepared' during a five-semester period, from Spring 2018 to Spring 2020, are transfer students.

More information about Student Right-To-Know information, visit the LACC Office of Institutional Effectiveness - Accountability website at: lacitycollege.edu/Academics/Institutional-Effectiveness/Accountability

The first step to becoming a college student is to submit a college application at: laccd.edu/Students/opencccapply/applylacc/Pages/default.aspx

- The college application is for new, returning, or high school students wanting to take classes for college credit.
- The noncredit application is for students wishing to enroll in no-cost (0 unit) courses that provide lifelong learning and career preparation opportunities. Noncredit also serves as a first point of entry and a transition point to credit instruction.
- International students should contact the International Student Program for information on how to apply to the college at iss@lacitycollege.edu or visit the website at lacitycollege.edu/Resources/International-Students/Department-Home

After the submission of a college application, the applicant will receive a Student ID and instructions on how to access the Student Information System portal and college email. In general, college applications will be processed in 1-2 business days.

For assistance in completing the online application, prospective students should visit the campus Welcome Center located in the Student Services Building or online in live chat at <https://laccd.zoom.us/j/3239532455>.

Re-Admission Policy

Students who missed two or more consecutive semesters (fall or spring) must file a new application.

High School Enrollment

To enroll in LACC courses as a high school student (concurrent/dual enrollment), you will need to reach out to your school counselor, apply to LACC, and complete a K-12 supplemental application. Visit the Dual Enrollment Program website at lacitycollege.edu/Resources/Dual-Enrollment/Department-Home to see the steps you need to follow.

Admission Eligibility Requirements

Prospective college applicants must possess a high school diploma or its equivalent to meet the basic eligibility requirements for admission.

Prospective students who do not possess a high school diploma or its equivalent would be eligible for admission if they meet the following additional eligibility requirements:

- Be at least eighteen (18) years of age, or
- Be an apprentice, as defined by Section 3077 of the California Labor Code, or
- Be concurrently enrolled in K-12 under concurrent and dual enrollment status

Residency Classification

The residency classification determines the amount of enrollment or tuition fee that a student will be required to pay for course enrollment. In addition, the residency status is used to determine student eligibility for the California College Promise Grant.

California Residency

To be classified as a California resident, a prospective student must have resided in California for at least one year and one day preceding the student's residence determination date. The residence determination date is the day before the opening day of instruction at any given semester.

Non-Resident

Students who do not meet the California residency status requirement will be classified as non-residents. Students with non-resident classification must pay the additional non-resident fee established by the LACCD Board of Trustees. International students with F-1 or M-1 Visa status are classified as non-resident and subject to the required non-resident fees. Visit the fee section in this catalog for more information.

Appeal of Residency Status

Except for F-1 Visa international students, students with an initial determination of non-resident status have the right to appeal their residency status. To do so, the non-resident student must complete a Residency Questionnaire form (with supporting documents as listed on the form) and submit it to the Admissions and Records Office. The Residency Questionnaire form is available online on the Admissions and Records web page at lacitycollege.edu/Admissions/Admissions-Records/Department-Home. The form must be submitted within 30 calendar days of non-resident notification and before the start of the semester in which the student is requesting a reclassification.

Non-Resident Tuition Exemptions

California Non-resident Tuition Exemption commonly known as AB 540, exempts certain students from paying non-resident tuition (higher than resident tuition) and/or allows them to apply and receive state aid at certain California public and private colleges.

For this exemption, you must satisfy either items 1 or 2 (time and coursework requirements):

1. Three (3) or more years of full-time attendance or attainment of equivalent credits earned in California from the following schools (or any combination thereof):
 - a. High School *
 - b. Adult School *
 - c. Community College (credit or non-credit courses) **

OR

2. Three (3) or more years of full-time high school coursework and attended a combination of elementary, middle and/or high school in California for a combined total of three (3) or more years.

AND

must satisfy any from item 3 (graduation and/or transfer requirement)

3. Graduation and/or transfer requirements:
 - a. Graduate from a California high school, or
 - b. Obtain a GED, HiSET or TASC in California, or
 - c. Attain an associate degree from a California Community College, or
 - d. Fulfilled the minimum transfer requirements to transfer from a California Community College to a University of California or California State University.

The following items must also be met to qualify for AB 540 status:

4. You will register or enroll in an accredited and qualifying California college or university, and
5. If applicable, you must complete an AB 540 affidavit stating that you will legalize your immigration status as soon as you are eligible (see the Admissions and Records Office at your college), and
6. You must not hold a valid non-immigrant visa (A, B, C, D, E, F, J, H, L, etc.), except persons granted Temporary Protected Status (TPS) or hold a U Visa ***

If you meet the requirements above, you should complete the CA Dream Act Application for financial aid. (A certified GPA is also necessary for Cal Grant consideration.)

The college is responsible for verifying your AB 540 eligibility. Check with Admissions and Records Office early in the summer before the Fall Term starts to complete the required AB 540 affidavit.

For more information, contact the Admissions and Records office at admissions@lacitycollege.edu.

Unit Limit

Students should work with an academic counselor to carefully plan their academic programs. Students may enroll for a maximum of 19 units for the spring or fall semesters, and 9 units for summer or winter sessions.

Students should contact the Counseling Office (in Student Services Building, 2nd Floor) to petition to take excess units or visit the counseling department webpage at: lacitycollege.edu/Academics/Counseling/Department-Home

In general, students may receive no more than 30 semester units of credit for remedial coursework. Exceptions to this limitation exist for students enrolled in ESL courses and students who have learning disabilities. "Remedial coursework" is defined as "pre-collegiate basic skills courses" which are described as "those courses in reading, writing, computation, and English as a Second Language which are designated by the community college district as non-degree credit courses."

*Full-time attendance = minimum of 420 hours/school year

**Credit courses = full-time attendance is a minimum of 12 units semester/quarter per year. Maximum of two (2) years of credit coursework can be used toward meeting 3-year requirement.

***Non-credit courses = full-time attendance is a minimum of 420 hours/school year

***AB 1899 allows U and T visa holders to also apply for state financial aid. (T visa holders should file a FAFSA, U visa holders should file a CA Dream Act Application)

FINANCIAL AID

Financial Aid Office

Student Services Building, 1st Floor
(888) 930-5222
finaid.lacitycollege.edu

What is Financial Aid?

Financial Aid are financial resources made available by federal and state governments and by private sources in the form of grants, scholarships, loans, and employment. This assistance makes it possible for you to continue your education beyond high school, even if you and/or your family cannot meet the full cost.

Eligibility for Federal Aid and Cal Grants

To be considered for federal aid and Cal grants, you must generally meet the following minimum requirements:

- Be a U.S. citizen or an eligible non-citizen. An eligible non-citizen is a U.S. permanent resident who has documentation from the Department of Homeland Security verifying that his/her stay in the U.S. is for other than a temporary purpose.
- Demonstrate financial need
- Be making satisfactory academic progress in a course of study leading to an AA or AS degree, certificate, or transfer to a baccalaureate degree program
- Not be in default on any loans such as Federal Perkins Loans, Federal Stafford Loans (subsidized and unsubsidized), Federal Direct Loans (subsidized and unsubsidized, or FPLUS Loans (Parental Loans for Undergraduate Students) at any school attended
- Not owe a refund on a Federal Pell Grant, Federal Supplemental Educational Grant (FSEOG), or Cal Grant programs
- Be enrolled as a regular student in an eligible program
- Have a valid social security number
- Demonstrate an Ability to Benefit (as defined in this section)

Ability to Benefit

If you meet one of the qualifications listed below, you will have demonstrated the ability to benefit from a college education in accordance with applicable federal regulations.

- Received a high school diploma; or passed a high school proficiency examination; or
- Received a certificate of General Education Development (GED); or
- Successfully completed a two-year program (minimum 48 credit towards a bachelor's degree)

If you are unable to demonstrate an Ability to Benefit, you should still apply for financial aid as you may qualify for the California College Promise grant.

Apply for Financial Aid

If you are a U.S. citizen or non-citizen who holds eligible immigration documents, you can apply for all federal and state financial aid programs by completing a Free Application for Federal Student Aid (FAFSA).

Apply online at:

www.studentaid.gov/h/apply-for-aid

Students who are classified AB540 by the LACC Admissions Office may apply for California financial aid programs by completing a CA Dream Act Application available online at dream.csac.ca.gov.

You will need a User ID and password to “sign” your FAFSA or CA Dream Act application. If you are a dependent student, your parent will also need a User ID and password. The option to create your User ID and password will be presented to you when you first begin your application. If you choose not to create your User ID and password at the beginning of the application, the option will be presented to you again when you get ready to submit.

The financial aid application process is free, and you should never pay for federal or state financial aid.

You will need to submit additional applications and/or forms for federal direct loans, emergency loans, or scholarships.

Priority Dates and Deadlines

TYPE OF AID	DEADLINE
Pell Grant, Cal Grant, loans	Financial aid applications and all required documents must be submitted to the Financial Aid Office prior to the end of the enrollment period. To be considered for Cal Grant, the FAFSA or CADAA must be submitted no later than March 2 for the subsequent award year. Students planning to attend a community college have a secondary deadline of September 2 to apply for Cal Grant.
California College Promise Grant	June 30 of the award year
Federal Work Study and FSEOG	Submit a FAFSA application by May 1 and have a completed file by June 1

Dates and deadlines are subject to change.

Verification

If you are selected at random for verification by the U.S. Department of Education and California Student Aid Commission when your application is processed, the Financial Aid Office will request that you submit additional documents.

Requirement to Return Federal Financial Aid

If you receive federal financial aid and withdraw from ALL courses at the institution in the first 60% of the term, you may have to return the “unearned” federal funds received prior to withdrawal. The Financial Aid Office will calculate the amount of federal funds earned up to the point of withdrawal and you will be billed and must return any federal grant funds received but not earned. Failure to return these funds will result in the denial of future federal financial aid.

Financial Aid Enrollment Status

The amount of financial aid that is disbursed to you may be less than the amount that is awarded. Disbursements are proportional to your enrollment status.

ENROLLMENT STATUS	ACTIVE ELIGIBLE UNITS*	PERCENTAGE RECEIVED
Full time	12 or more units	100%
Three-quarter time	9 - 11.5 units	75%
Half time	6 - 8.5 units	50%
Less than half time	Less than 6 units	Varies

*See "Satisfactory Academic Progress Policy"

Post-Withdrawal Disbursements

If you completed your financial aid file but withdrew from all of your courses before receiving any disbursements from federal aid, you may be eligible for a post-withdrawal disbursement. If you are eligible for such a disbursement, you will be notified by email.

You are advised to contact the Financial Aid Office before withdrawing from all of your classes.

Federal Recalculation Requirements

Federal Pell Grant and Federal Supplemental Educational Opportunity Grant (FSEOG) awards must be recalculated if your information changes after the initial calculation or disbursement. The three factors that are most likely to change are enrollment status, expected family contribution (EFC), and cost of attendance.

Awards will be calculated during each term, based on your enrollment status for that term. If your enrollment status changes up to the date of the second disbursement run date, the Financial Aid Office will recalculate your federal financial aid grants. A recalculation may result in a decreased or increased award.

Full-Time Definition

A study program of 12 units or more is considered a full-time study program for the fall or spring semesters. Full-time students are eligible to receive the maximum Pell Grant.

Determining Financial Need

The type of financial aid and amount received will be determined by the LACC Financial Aid Office. Financial aid awards are based on demonstrated financial need, which is the difference between allowable educational expenses and the expected family contribution (EFC) and/or the student's resources (such as additional grants, scholarships, and awards made by programs other than LACC Financial Aid). Expected family contribution and resources are then measured against the institutional student cost of attendance to determine financial need.

Satisfactory Academic Progress Policy

General Information

To be eligible for federal and state financial aid programs, students are required by the U.S. Department of Education and the State of California to maintain satisfactory academic progress (SAP) as they work toward completing their educational objective (certificate, AA or AS degree, or transfer program). The Los Angeles Community College District (LACCD) has established guidelines to promote timely completion of its educational programs, which are applied to all classes taken in the LACCD. These standards apply to all students who apply for and receive financial aid from the programs listed below:

- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)
- Federal Work Study (FWS)
- Federal Direct Loan (FDL)
- Cal Grant A, B, and C
- Student Services Completion Grant

Students receiving financial aid must be enrolled in an eligible program. Eligible programs are:

- A program that leads to an associate degree
- A program that is at least a two-year academic transfer program acceptable for full credit toward a bachelor's degree
- A program that leads to an approved certificate of achievement

Satisfactory Academic Progress Standards

- You must maintain a 2.0 cumulative GPA
- You must complete your program within 150% of the published units that are required for its completion
- You must complete 66.5% of all coursework attempted

Fraud

Any student who attempts to obtain financial aid by fraud will be suspended from financial aid for unsatisfactory conduct. The college will report such instances to local law enforcement agencies, to the California Student Aid Commission, and/ or to the Federal government. Restitution of any financial aid received in such a manner will be required.

MATRICULATION

The matriculation process helps students identify and accomplish their educational goals by providing admission, online orientation, self-placement into Math and English courses, counseling, and follow-up services. As part of the process, students declare a specific educational goal and major, attend class regularly, complete assigned course work, and maintain satisfactory progress toward the achievement of their educational goal.

Application

Students can complete an admissions application online. (See the 'Admissions' section in this catalog for more information.) Students can also speak to an Outreach staff member at the Welcome Center (located on the 1st floor of the Student Services building) or at their high school (as applicable in the LACC service area) for assistance in completing the admissions application and to receive general campus information.

Online Orientation

The LACC online orientation introduces students to campus policies, procedures, resources, academic expectations, financial assistance, support services, and college programs which are available to help students make better, more informed educational and career choices. Students will need to log into their portal in order to access the LACC online orientation. Students can complete the online orientation 24 hours a day/ 7 days a week from any computer with a browser and Internet access. Completing orientation is a necessary condition for priority registration.

Complete an online orientation at:

lacitycollege.edu/Admissions/SSSP/1-Orientation

Counseling/ Student Educational Planning

LACC's Career and Academic Pathways can be found at: program-map.lacitycollege.edu/academics.

Counselors are available to help students identify an academic path (foundational skills, certificate, associate degree, associate degree for transfer, and/or pathway for university transfer) and enroll in courses that will align with their general education, competency and major requirements reflected on the student education plan (SEP).

Ideally students should meet with a counselor early in their enrollment at LACC to create an SEP that maps out the courses needed to graduate and/or transfer. A counselor will help students evaluate and develop a sequence of courses that will take into consideration prerequisites, corequisites, transcript evaluation, financial means, schedule, and career and academic goals. Failure to complete a student educational plan will impact priority enrollment.

Group Counseling Sessions

Group counseling sessions are in-person, counselor-led advisement sessions. In these sessions, students will learn tips and strategies for academic success, and learn about college support services and resources. Students will also learn about course requirements including general education needed for associate degrees and transfer. Students will work with the counselor to develop an abbreviated student education plan (SEP). Students who have taken 12 or more units at any college or university should meet individually with a counselor.

Visit General Counseling on the 2nd floor of the Student Services Building for more information.

Matriculation Exemptions

Students may be exempt from matriculation core services if they:

- Have earned an associate degree or higher
- Enrolled at the college for a reason other than career development, advancement, transfer, attainment of degree or certificate of achievement, or completion of basic skills English or English as a Second Language course sequences
- Are taking classes to maintain a license
- Are concurrently enrolled K-12 students

REGISTRATION

Registration is given in the following order to new and continuing students who are in good academic standing and completed college orientation and an educational plan. LACC will follow board policy 2900 for COVID-related enrollment procedures.

- Priority Registration Tier 1: CalWorks, DSPTS/OSS, EOPS, Foster Youth, Active Duty Veterans
- Priority Registration Tier 2: Athletes, Promise, Completion
- Registration Tier 3: Continuing/New Fully Matriculated Students
- Registration Tier 4: Students Who Lost Priority
- Registration Tier 5: Open Enrollment, including K-12 Special Admits

For specific registration dates, visit the Academic Calendar website at: lacitycollege.edu/Calendar/Academic-Calendar/Academic-Year-Calendar

Registration Appointments

Students continuing from the prior semester will automatically receive an email notification and reminder on their student portal. New and returning students are issued a registration appointment when the application for admission is approved. A registration appointment is not required during the open enrollment period.

Assistance With Enrolling

If you need help enrolling in a class, email the Admissions Office at admissions@lacitycollege.edu from your student email account. Use "Add Class" for a subject line and include your name, student number, course name, course number, and permission number from the instructor (if necessary).

Considerations for Enrollment

A number of factors may prevent a student from enrolling in a course:

- Enrollment holds (non-payment of fees, academic dismissal)
- Not having completed a prerequisite
- Concurrent admission form has not been processed (for high school students)
- The student's portal indicates that they are an "alumni," meaning they do not have an active application on file because they have not been enrolled in the last two regular full-term semesters
- The student obtained a grade of A, B, C, CR, P, or I in a previous attempt of a non-repeatable class.

Loss of Priority Registration

With the exception of current and former foster youth, a student may lose their priority registration if:

1. They are placed on academic probation for two (2) consecutive semesters; or
2. They completed one hundred (100) or more degree applicable units within LACCD

Appealing Loss of Priority Registration and Loss of California College Promise Grant

After each regular term, the college will send an email notification to students who are subject to the loss of priority registration and California College Promise Grant (CCPG). Students may petition to appeal the loss of priority registration or CCPG by submitting a Petition to Appeal Loss of Enrollment and CCPG that comes with the notification.

A student may appeal on one or more of the following grounds:

1. The student has extenuating circumstances. Extenuating circumstances are verified cases of accidents, illnesses, or other circumstances beyond the student's control.
2. The student applied for reasonable accommodation for a disability, but did not receive it in a timely manner.
3. The student demonstrated significant academic improvement. Significant academic improvement is defined as achieving no less than a 2.0 grade point average in the prior term.

All petitions must be submitted by the established deadline as stated in the notification or in the college website. The petition is available at: laccd.edu/Departments/EPIE/Documents/LACCD%20Loss%20of%20Enrollment%20BOGW%20Fee%20Waiver%20Appeal%20fillable%20form%2007-01-2016.pdf.

The college Priority Registration and Loss of CCPG Appeals Committee will review each petition and inform the student of the outcome within ten (10) business days after the review of petition. The decision of the Priority Registration and Loss of CCPG Committee shall be final.

Late Registration

If a class has available space, students can enroll in the class through the second day of the semester.

If a class is full and the wait list is full, a student may register for a class with permission from the instructor. The late registration process occurs during the first two weeks of the semester. Students wishing to add a class should show up on the first day of the class and obtain a permission number from the instructor or send an email to the instructor. Instructor's emails can be found in the Directory at lacitycollege.edu/About/Directories/Employee-Directory. Students can use the permission number to register through the Student Information System (mycollege.lacc.edu).

Limitations on Enrollment

(LACCD Board Policy 4260)

Unless specifically exempted by statute or regulation, every course offered is fully open for enrollment and participation by any person who has been admitted to LACC and who meets the prerequisites (California Code of Regulations Title 5 §55200-55202). Enrollment in specific courses may be limited.

Online Education. Students from the following states are eligible to take online classes at LACC: Arizona, California, Connecticut, Washington D.C., Delaware, Hawaii, Idaho, Illinois, Kentucky, Louisiana, Maine, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, Washington, West Virginia, and Wisconsin. For more information, including an online learning readiness assessment, visit lacitycollege.edu/Academics/Distance-Education/Home.

Concurrent Course Enrollment

Concurrent enrollment in more than one section of the same course during a semester is not permitted, with the exception of certain Kinesiology classes on a limited basis. Concurrent enrollment in courses which are cross-referenced to each other is not permitted (i.e., courses designated "same as" in the District Directory of Educational Programs and Courses). Enrolling in classes scheduled or conducted during overlapping times is not permitted. Violation of this regulation will result in loss of transfer credit. Consult with the department for additional information.

Auditing Classes

Students who have completed an application and who are authorized to register may be permitted to audit a class.

To request to audit a class, complete the Request for Enrollment of a Class as an Audit form at lacitycollege.edu/LACC/media/buildings/Request-for-Audit-Enrollment.pdf

For more information, see the Auditing entry in the "Student Handbook" section of this catalog.

Wait List

If a class is full and a wait list option is available, a student can use the student portal to indicate they would like to be placed on the wait list. As enrolled students drop from the class, students on the wait list will be added to the class.

Students who are moved from the wait list to an open seat will be removed from a non-repeatable class if they obtained a grade of A, B, C, CR, P, or I in a previous attempt of the same course. LACC will follow board policy 2900 for COVID-related enrollment procedures.

Fourth Attempt Petition

A student may enroll and receive a grade of "W, D, F, NCR or NP" in the same credit course a maximum of three times. Title 5 Regulation 55024 allows a district to establish a petition process for students attempting this same course a fourth time due to extenuating circumstances which are defined as "verified cases of accidents, illness, or other circumstances beyond the control of the student." Petitions will be reviewed on a case-by-case basis and must be approved by both the appropriate academic chair and a counselor.

Fourth Attempt Petitions will be considered for spring and fall semesters only:

- Spring semester: October 1 to December 1
- Fall semester: April 1 to May 1

The Fourth Attempt Petition Form is available at: lacitycollege.edu/Admissions/Admissions-Records/documents/LACC-Fourth-Attempt-Petition-Fillable.pdf

Students who have a change of work schedule or other extenuating circumstances may request a section transfer from one class to another class in the same course subject. Section transfers can only occur when both classes have the same start and end dates.

You can request a section transfer by emailing your current instructor, who will submit the request to the Admissions Office. Consent must be granted by the new instructor for the new class and may involve instructor-to-instructor transfer of grade records.

Cancellation of Classes

The college reserves the right to cancel a class due to insufficient number of enrolled students prior to the end of the second week of the term.

Dropping Classes and Withdrawing From College

Students may add and drop classes during the designated add/drop period. Each class has unique drop dates. Go to mycollege.edu to log in to your class schedule. Click on Manage Classes. Go to View My Classes. Click on the Class number. Click on Enrollment Information to see the drop deadlines. Contact Admissions & Records at admissions@lacitycollege.edu for any drop date inquiries.

Consult with an academic counselor when considering withdrawal from classes and/or the college. Clearance of the record in courses where equipment has been issued is required when a student separates from such classes. Students may drop individual classes from their student portal. Students who cease attending class or classes, officially or unofficially, are subject to the following regulations:

1. Dropping or withdrawing officially from a class prior to the 20% of a term (10% point in short-term summer, winter, and late-start classes) will prevent classes from appearing on the student's permanent record.

2. Dropping a class after 20% of the term is completed will result in a “W” being recorded on the student’s permanent record. It is the student’s responsibility to drop before the deadline dates. Excessive “W” grades may lead to financial aid disqualification and college dismissal.
3. Students are not permitted to drop a class or withdraw from the College after 75% of the term. Grades shall be recorded by the instructor based on the student academic performance during the period of attendance. Students may receive a failing grade in courses in which they stop attending and fail to officially drop or withdraw from the class.
4. Students seeking withdrawal from a class after the “W” deadline for extenuating circumstances should file a general petition in the Office of Admissions. The petition should clearly state the extenuating circumstances and provide supporting documentation.

The Admissions Office will review student petitions and notify the student of a decision. The following criteria will be applied: Verification of cases of accidents, illness, or other circumstances beyond the control of the student (i.e., death of an immediate family member, natural disaster, and/or other extenuating circumstances that prevented a student from complying with college course withdrawal policy).

Students wishing to appeal the final decision should be referred to the Student Grievance Procedures, Administrative Regulation E-55.

A “W” (Withdrawal) counts as attempted enrollment. Students are limited to three attempts to repeat the same course.

It is a student’s responsibility to drop classes they no longer wish to attend. Failure to drop a class may result in fee charge and/or having grades of “W” or “F” recorded on the official student transcripts.

Prerequisites, Corequisites, and Advisories

PREREQUISITE: A condition of enrollment that a student is required to meet in order to demonstrate readiness before enrolling in a course.

COREQUISITE: A course that a student is required to enroll in a corequisite simultaneously with (or, in some cases, may be allowed to enroll in the corequisite prior to) the primary course.

ADVISORY: A course that a student is advised, but not required, to take in conjunction with or prior to a course. condition of enrollment that a student is required to meet in order to demonstrate readiness for enrolling in a course or educational program.

Satisfactory Grade

All prerequisites must be completed with a satisfactory grade. “Satisfactory grade” means the grade you earned must be an A, B, C, or Pass. If you are currently enrolled in a course that is used as a prerequisite for the subsequent course, you can enroll in the next course while the prerequisite is in progress.

Clearing a Prerequisite or Corequisite

(LACCD Administrative Procedure 4260)

Prerequisite clearance is not automatic when you send official transcripts from an institution outside of LACC to our Admissions Office. You can simply provide a counselor a copy of an unofficial transcript verifying your name, the accredited college, the course, and the grade earned for review.

Steps for prerequisite clearance:

1. Email the college at prereqs@lacitycollege.edu.
2. In the subject line add: “Your Name - Student ID# - the LACC course(s) you intend to take”.
3. Attach a copy of your transcript (unofficial is acceptable) that clearly shows the college name, your name, the course title, the term taken, and the final grade received.
4. A counselor will evaluate if your coursework meets the stated pre or corequisite and will clear you accordingly.

Challenging a Prerequisite or Corequisite

(LACCD Administrative Procedure 4260)

If you do not meet a stated prerequisite, corequisite, or the equivalent, or you are not permitted to enroll due to a limitation on enrollment, but can provide satisfactory evidence, you may seek entry into the course if space is available in a course when you file a challenge to the prerequisite or co-requisite. If no space is available in the course when your challenge is filed, the challenge must be resolved prior to the beginning of registration for the next term(s) and, if the challenge is upheld, you will be permitted to enroll if space is still available in the subsequent term(s).

Submit your prerequisite/corequisite challenge to the appropriate Department Chair.

You have grounds for challenging a pre- or corequisite course if (Title 5 Section 55003 subdivision (p)):

1. The prerequisite or corequisite has not been made reasonably available
2. The prerequisite was established in violation of district approved processes
3. The prerequisite is discriminatory or applied in a discriminatory manner
4. The student has knowledge or ability to succeed in the course despite not meeting the prerequisite
5. The student will be subject to undue delay in attaining the goal of his or her educational plan because the prerequisite or corequisite course has not been made reasonably available
6. Other grounds for challenge may be established by the district governing board.

Regardless of the grounds for challenge, you have the obligation to provide satisfactory evidence that the challenge should be upheld. However, where facts essential to a determination of whether the student’s challenge should be upheld are or ought to be in the college’s own records, then the college has the obligation to produce that information.

Fee Refund Policies

Full-Term Course Fees

A student will automatically receive a full refund of the enrollment fee if they drop by the refund deadline. Thereafter, no refund is authorized, except when college action to cancel or reschedule a class necessitates the drop. After the refund deadline, a student may drop a course and apply the fee previously paid towards meeting the cost of the fee of a course to be added during the same semester. Note that after the refund deadline there will be absolutely no refunds even when an added course has fewer units than a course that was dropped.

Short-Term Course Fee

A student will automatically receive a full refund up to the end of a period of time equal to approximately 10% of the total class time. There will be no refunds after that time, unless a student must drop a class because it was canceled or rescheduled by the college administration.

Non-Resident Tuition Fee

Refunds of non-resident tuition for full-term or short-term courses are governed by the same policies as indicated above. A student will automatically receive a full refund of the enrollment fee if they drop by the refund deadline.

Student Representation Fee

A \$2 student representation fee provides independent support for student-elected governmental affairs representatives to express on your behalf the opinions and viewpoints of community college

students regarding education and social issues before city, county and district government offices and agencies at the local, state, and federal level.

This fee helps ensure students have a voice in the government process. Opting out of the \$2 student representation fee reduces the ability of local and state student body organizations to lobby in support or against education-related issues on behalf of students.

Parking Fee

Parking fees can be refunded within the first four weeks of school at the Business Office. In order to get a refund, permits must be returned and a refund form must be completed and submitted to the Business Office. Academic and Progress Probation

(LACCD Board Policy 4250, Administrative Procedure 4250)

The following standards for academic and progress probation shall be applied as required by regulations adopted by the Board of Governors of the California Community Colleges.

Probation and Loss of Fee Waiver

A student enrolled in the LACCD shall be placed on academic or progress probation, under the following conditions:

- Academic Probation. The student has attempted at least 12 semester units of work and has a grade point average of less than a "C" (2.0).
- Progress Probation. The student has enrolled in a total of at least 12 semester units, and the percentage of all units in which the student has enrolled with recorded entries of "W" (Withdrawal), "I" (Incomplete), "NC" (No Credit) or "NP" (No Pass) reaches or exceeds fifty percent (50%).
- California Promise Grant – loss of eligibility. A student eligible to receive a California Promise Grant shall lose eligibility if they are placed on academic or progress probation for two consecutive semesters. Loss of eligibility shall become effective at the first registration opportunity after such determination is made. Foster youth, or former foster youth under the age of 24, are exempt from the loss of fee waiver due to academic or progress probation.

Removal from Probation and Reinstatement of Fee Waiver

A student shall be removed from academic or progress probation and have their fee waiver restored upon meeting the following criteria:

- Removal from Academic Probation - A student shall be removed from academic probation when his/her cumulative grade point average is 2.0 or higher.
- Removal from Progress Probation - A student shall be removed from progress probation when the percentage of units for which entries of "W" (Withdrawal), "I" (Incomplete), "NC" (No Credit) or "NP" (No Pass) are recorded drops below fifty percent (50%).

A student may retain or reinstate the California Promise Grant based on achieving the minimum grade point average or progress standard defined above in removal from academic probation/removal from progress probation.

Probation: Dismissal, Appeal of Dismissal, and Readmission

Students on academic or progress probation are subject to dismissal, as follows:

Dismissal - Academic Probation

A student who is on academic probation shall be subject to dismissal if the student has earned a cumulative grade point average of less than 2.0 in all units attempted in each of three (3) consecutive semesters.

A student who is on academic probation and earns a semester grade point average of 2.0 or better shall not be dismissed as long as this minimum semester grade point average is maintained.

Consecutive semesters" are those where a break in the student's enrollment does not exceed one full primary term.

Dismissal - Progress Probation

A student who is on progress probation is subject to dismissal if the cumulative percentage of units for which he/she received "W", "I", "NC", and "NP" reaches or exceeds fifty percent (50%) over a period of three (3) consecutive semesters. However, a student who is on progress probation, and during a semester and for which symbols of "W", "I", "NC", and "NP" entered for units enrolled is fewer than 50%, shall not be dismissed as long as the 50% threshold is not surpassed during that term.

Consecutive semesters" are those where a break in the student's enrollment does not exceed one full primary term.

Appeal of Dismissal

(LACCD Administrative Procedure 4255)

Students subject to dismissal have the right to file a written petition with the College Admissions and Records Office to appeal a proposed dismissal action if they experienced extenuating circumstances beyond their control which warrant an exception to the proposed dismissal.

Re-Admission After Dismissal

(LACCD Board Policy 4250, Administrative Procedure 4255)

A student who has been dismissed must wait two semesters before requesting readmission. The student shall submit a written petition requesting re-admission to his/her home college. Re-admission may be granted, denied, or postponed according to criteria contained in administrative procedures and subject to fulfillment of conditions prescribed in AP 4255. Readmitted students are returned to probationary status.

ENGLISH, ESL, AND MATH PLACEMENT

In order for you to achieve your degree, certificate, or transfer more quickly, California community colleges, including LACC, have changed their methods for placement in required Math, English, and ESL (English as a Second Language) courses. You will no longer need to take a placement exam as in the past. Instead, your U.S. high school grades and coursework in Math and English will count toward your placement. (For more information, visit assessment.cccco.edu.)

What if you do not have your high school records, did not complete at least 11th grade in a U.S. high school, or graduated from a high school outside of the United States? You can still enroll in Math and English courses but should consult with a counselor to see which level of Math or English would be most appropriate to start with.

If you are an international student or speak a language other than English, you will complete an ESL Guided Self-Placement Survey.

Once you know your recommended Math, English, and ESL courses, you can enroll in the classes and get on your educational path. You can learn about the ESL guided self-placement process at lacitycollege.edu/Admissions/SSSP/2-Assessment/FAQ. Students interested in completing this process can fill out the interest form at lacitycollege.edu/Admissions/SSSP/2-Assessment/Request.

When you apply using CCCApply or update your placement information using the LACCD MMAP Web Form on your To-Do Checklist, you will be placed into the appropriate course.

English Placement

According to California law, you can start in ENGLISH 101, our transfer-level course. However, you might feel the need for some academic support. As a result, you can use your high school GPA and coursework to determine which support courses, if any, you should take in order to increase your chances of success.

Below is the chart we have devised to help with your decision:

TIER	PLACEMENT CRITERIA	COURSE	RECOMMENDED SUPPORT COURSE
1	HSGPA greater than/equal to 2.6	ENGLISH 101	
2	HSGPA between 1.9 and 2.6	ENGLISH 101	ENGLISH 104
3	HSGPA less than 1.9	ENGLISH 101	ENGLISH 104 (highly recommended)
4	Insufficient data to apply the above (see Guided Self-Placement)		

HSGPA = U.S. high school cumulative grade point average

The support course (ENGLISH 104) is to be taken at the same time as ENGLISH 101. We also offer a course below ENGLISH 101, ENGLISH 028, if you feel the need to start one level below. (If English is not your native language, you may consider the ESL pathway, with E.S.L. 008 being the last sequential course before moving into ENGLISH 101.) There is also a transfer-level E.S.L. 110 course, equivalent to English 101 and transferable to the CSUs, which ESL students can take instead of English 101.

COURSE	DESCRIPTION
ENGLISH 101 College Reading and Composition I	A transfer-level English composition course that is required for all degrees and all transfer patterns. The course is also a prerequisite for all other transfer-level ENGLISH courses. The course includes tutoring.
ENGLISH 104 College Writing Skills and Support	Provides additional support for students who feel they may need it. This course does not meet any transfer or degree requirement.
ENGLISH 028 Intermediate Reading and Composition	A below-transfer-level course that provides a review of topics at the high school level in preparation for ENGLISH 101. The course does not meet any transfer or degree requirement.
E.S.L. 008 Advanced ESL Composition	A below-transfer-level course intended to prepare English language learners. This course does not meet any transfer or degree requirement.
E.S.L.: 110: College Composition for Non-Native Speakers	A transfer-level composition course designed for non-native English speakers, equivalent to ENGLISH 101 and transferable to CSUs.

Along with the support course, we have support services, such as embedded tutoring in our stand-alone ENGLISH 101 courses, the Writing Support Center and ESL Lab, and free, two-week English boot camps, to help you with your critical reading and writing skills. Consult with the English/ESL department chair for more information about these services.

English as a Second Language (ESL) Placement

If you are an international student or speak a language other than English, we have the ESL Guided Self-Placement Survey to see which level of ESL courses will be best for you. Simply visit lacitycollege.edu/Admissions/SSSP/2-Assessment/Request to request a time to complete the ESL guided self-placement process. For information on the Survey and ESL placement, please contact General Counseling or the English/ESL department. You can also visit lacitycollege.edu/Admissions/SSSP/2-Assessment to get started.

Math Placement

A. Business, Science, Technology, Engineering, and Mathematics (BSTEM)

The following criteria are used for placement into BSTEM math courses.

TIER	PLACEMENT CRITERIA
1	HSGPA greater than/equal to 3.4 or HSGPA greater than/equal to 2.6 and HS Calculus
2	HSGPA greater than/equal to 2.6 or HS Precalculus (or equivalent)
3	HSGPA less than 2.6
N	Use Guided Self-Placement
HSGPA = U.S. high school cumulative grade point average	

The following courses may satisfy requirements for business, science, technology, engineering, and mathematics programs:

- MATH 236 Calculus for Business and Social Science
- MATH 245 College Algebra
- MATH 258 Geometry and Trigonometry
- MATH 260 Precalculus
- MATH 260S Precalculus with Support

MATH 100 and MATH 202 (Mathematics Workshops) are available for students who feel they need additional support.

B. Statistics and Liberal Arts Math (SLAM)

The following criteria are used for placement into statistics or liberal arts math courses:

TIER	PLACEMENT CRITERIA
1	HSGPA greater than or equal to 3.0
2	HSGPA between 2.3 and 3.0
3	HSGPA less than 2.3
N	Use Guided Self-Placement
HSGPA = U.S. high school cumulative grade point average	

The following courses may satisfy requirements for programs requiring statistics and liberal arts math:

- MATH 215 Principles of Mathematics I
- MATH 227 Statistics
- MATH 227S Statistics with Support
- MATH 230 Math for Liberal Arts Students

MATH 100 and MATH 202 (Mathematics Workshop) are available for students who feel they need additional support.

Guided Self-Placement

If you are not able to provide enough information for automated placement, have been away from high school for more than 10 years, or did not attend or graduate from a U.S. high school or earn a GED or CA High School Proficiency certificate, you may use the Guided Self-Placement process. This may involve meeting with a counselor or other college officer to discuss topics such as the following to help you with placement:

- Courses taken and grades received
- The transfer-level English and math courses offered at the student’s home college, and which of them (if any) are required for the student’s chosen major, general education plan, or transfer plan
- The support courses and services offered to students enrolled in transfer-level courses
- Students’ rights under the AB 705 law

Math Competency for Continuing Students

If you started taking classes prior to Fall 2019, maintained continuous enrollment, and have placed into any transferable-level math course, you have met math competency for all eligible associate degrees (does not include Associate Degrees for Transfer). If you were admitted in Fall 2019 or later, you will have met competency by verifying earning a C- grade or better in intermediate algebra, its equivalent or higher at a U.S. regionally accredited high school or college, or by other means defined in LACCD Administrative Regulation E-79.

Pre-/Corequisites and Major Requirements

Prerequisites, corequisites, advisories, and limitations are necessary to ensure that you succeed in your coursework and have access to the courses they require. It is important to have prerequisites in place where they are a vital factor in maintaining academic standards. It is also necessary to ensure that prerequisites, corequisites, advisories, and limitations do not constitute unjustifiable obstacles towards your access and success. If you place into a course that is part of a sequence you do not need to take any course lower in that sequence. This includes any course that is a pre- or corequisite to any course in the same subject or any other subject, or is a prerequisite or requirement for any program.

Math

If you place into MATH 215, 227, 227S, 230, 236, 245, 258, 260, or 260S you are not required to take any lower-level math course. If you plan to earn an associate degree and cannot meet math competency through any other approved means, you are required to pass a college course prior to graduation.

English

If you place into ENGLISH 101 you are not required to take any lower-level English course. Since there is no prerequisite for our transfer-level course, you can begin with ENGLISH 101. If you feel you have met this English requirement through another means, such as taking an equivalent class at another college outside our district please consult a counselor, the articulation officer, or the English/ESL department. Otherwise, you will need to enroll and pass this course in order to graduate with an associate degree and/or transfer.

If you are an ESL student, you will need to take the guided self-placement survey to determine which level of E.S.L. classes to enroll in.

See a counselor for more information regarding English, ESL, and math placement.

LEARNING IN YOUR CAREER AND ACADEMIC PATHWAY

Learning Outcomes

A learning outcome is a statement that describes what students will be able to do after completing any set of college experiences, a course, an instructional program, or an interaction with a student support service. Students are advised to become familiar with the learning outcomes for each of their courses, their chosen program of study, and for the student services they utilize.

Course Student Learning Outcomes (CSLOs)

Course student learning outcomes describe the skills and abilities a student will have once they have successfully completed a course. Course student learning outcomes can be found on the course syllabus that you receive in each class section.

Program Student Learning Outcomes (PSLOs)

Program student learning outcomes describe the learning obtained across multiple courses. They describe the skills and abilities you will have once you have successfully completed all the courses and requirements of a program. Program student learning outcomes are listed in this catalog.

Institutional/General Education Student Learning Outcomes (ISLOs/GELOs)

Institutional student learning outcomes describe the skills and abilities that students are expected to have acquired once they complete an associate degree at LACC. Students will achieve the following 11 outcomes:

1. Broad & Integrative Knowledge. Consolidate broad knowledge that bridges multiple areas of learning and fields of study.
2. Civic Engagement. Have the knowledge, skills, and values necessary to help promote the quality of life in diverse communities through both political and non-political processes.
3. Diverse Perspectives. Display the intellectual flexibility that enables perception of the world through varied cultural customs, practices, and viewpoints of different identities.
4. Ethical Reasoning. Rationally reflect and evaluate ethical systems and codes of conduct.
5. Aesthetic Awareness. Ability to create, categorize, appreciate, and analyze artistic objects and the aesthetic responses of audiences.
6. Communication Competency. Produce verbal and written communication that is clear, logical, organized, and adapted to effectively meet the needs of various audiences.
7. Critical & Creative Thinking. Use appropriate reasoning, analytic, and problem-solving strategies to draw logical conclusions or formulate creative solutions.
8. Information Competency. Research, evaluate, use, and communicate information in various formats.

9. Quantitative Competency. Represent and logically interpret mathematical information visually, numerically, and verbally
10. Lifelong & Applied Learning. Apply skills to address unscripted problems and practice intellectual curiosity that values diversity of thought.
11. Technical Proficiency. Demonstrate specific proficiencies with respect to the major field of study.

Assessment of Learning Outcomes

Student learning is assessed on a continuous basis to ensure that students are learning the course and program objectives and content as well as acquiring the understanding, skills, and/or knowledge desired by student support services and administrative services.

Through a systematic student learning outcomes assessment process, faculty members review their courses and make adjustments to improve student achievement. Student support services and administrative services review the effectiveness of the services provided and make improvements as needed.

STUDENT HANDBOOK

Academic Policies

Attendance

Students are expected to attend every meeting of all classes, but may not attend a class without being registered for that class. The instructor may exclude a student who has enrolled for a class but does not attend or who is late or absent from the first meeting of the class. Whenever absences in hours exceed the number of hours the class meets per week, the student may be excluded from class by the instructor.

It is the student's responsibility to notify the instructor of any circumstances which will prevent attendance at any meeting of the class. Students may notify instructors by email or by phone using the number listed on the course syllabus. If the number is not listed, contact the department chair and ask that the message be forwarded.

It is the student's responsibility to drop a course!

Any drops or exclusions that occur between 30% and 75% of the term will result in a "W" on the student's record, which will be included in the determination of progress probation. Drops are not permitted beyond 75% of the term. An evaluative grade ("A", "B", "C", "D", "F", "P", or "NP") will be assigned to students who are enrolled past 75% of the term even if they stop attending class, except in cases of approved extenuating circumstances. After 75% of the time the class is scheduled, the student may petition to withdraw from class verifying extenuating circumstances.

For more information visit the Admissions and Records website at lacitycollege.edu/Admissions/Admissions-Records/Department-Home.

Final Examinations

Final examinations are given in all courses. The final examination schedule for the current semester is available at lacitycollege.edu/Calendar/Academic-Calendars/Final-Exam-Schedule.

Deans' and President's Honors

Students with outstanding scholastic achievement are given public recognition through the LACC Deans' List, within the following parameters:

- Full-time students (a student enrolled in 12 or more graded units the qualifying semester) must earn a 3.5 or higher GPA.
- Part-time students (a student enrolled in 6 through 11 graded units) must have completed 12 or more graded units and earn a 3.5 or higher GPA in the qualifying semester.

Only the grades from courses completed at LACC, during the qualifying semester, will be used in calculating the grade point average

(GPA). Grades of "Credit" (Pass/No Pass) will not be counted in meeting the unit requirement for the Deans' or President's Honor List.

Students who have appeared on the college's full-time or part-time Deans' Honor list for three (3) consecutive semesters will be placed on the President's Distinguished Honor List. Students who think they qualify for either of these honors can go to the Admissions Office to verify their eligibility. To have your honors certificate mailed to you, send your name, student number, and address to Admissions Office at admissions@lacitycollege.edu.

Grading Symbols and Definitions and Conditions for Use

(LACCD Administrative Procedure 4230)

Only the symbols in the grading scale given in this section shall be used to grade all courses.

Grades shall be averaged on the basis of the point equivalences to determine a student's grade-point average, using the following evaluative symbols:

GRADE	DEFINITION	GRADE POINTS
A	Excellent.	4
B	Good.	3
C	Satisfactory	2
D	Less than satisfactory.	1
F	Failing.	0
P	Passing (At least satisfactory - units awarded not counted in GPA. Has the same meaning as "CR" as that symbol was defined prior to June 30, 2007). Applies to credit and noncredit courses.	
NP	No Pass (Less than satisfactory, or failing - units not counted in GPA. NP has the same meaning as "NC" prior to June 30, 2007). Applies to credit and noncredit courses.	
SP	Satisfactory Progress towards completion of the course (used for noncredit courses only and is not supplanted by any other symbol)	

Explanation of Symbols Without Impact on Grade Point Average

I - Incomplete

Incomplete academic work for unforeseeable, emergency and justifiable reasons at the end of the term may result in an "I" symbol being entered in the student's record. The condition for the removal of the "I" shall be stated by the instructor in a written record. This record shall contain the conditions for the removal of the "I" and the grade assigned in lieu of its removal. This record must be given to the student with a copy on file with the Admissions Office until the

"I" is made up or the time limit has passed. A final grade shall be assigned when the work stipulated has been completed and evaluated, or when the time limit for completing the work has passed.

IP - In Progress

The "IP" symbol shall be used only in those courses which extend beyond the normal end of an academic term. It indicates that work is "in progress," but that assignment of an evaluative symbol (grade) must await its completion. The "IP" symbol shall remain on the student's permanent record in order to satisfy enrollment documentation. The appropriate evaluative symbol (grade) and unit credit shall be assigned and appear on the student's permanent record for the term in which the course is completed. The "IP" shall not be used in calculating grade point averages. If a student enrolled in an "open-entry, open-exit" course is assigned an "IP" at the end of a term and does not re-enroll in that course during the subsequent term, the appropriate faculty will assign an evaluative symbol (grade) in accordance with subdivision (a) or (a) and (b) if plus and minus grading is used) to be recorded on the student's permanent record for the course.

RD - Report Delayed

The "RD" symbol may be assigned by the registrar only. It is to be used when there is a delay in reporting the grade of a student due to circumstances beyond the control of the student. It is a temporary notation to be replaced by a permanent symbol as soon as possible. "RD" shall not be used in calculating grade point averages.

W - Withdrawal

Withdrawal from a class or classes shall be authorized through the last day of the fourteenth week of instruction or 75% of the time the class is scheduled to meet, whichever is less.

No notation ("W" or other) shall be made on the record of a student who withdraws before the census date of the course.

Withdrawal between the end of the fourth week (or 30% of the time the class is scheduled to meet, whichever is less) and the last day of the fourteenth week of instruction (or 75% of the time the class is scheduled to meet, whichever is less) shall be authorized after informing the appropriate faculty. A student who remains in class beyond the fourteenth week or 75% of the time the class is scheduled shall be given a grade other than a "W", except in cases of extenuating circumstances.

After the last day of the fourteenth week (or 75% of the time the class is scheduled, whichever is less) the student may withdraw from class upon petition demonstrating extenuating circumstances and after consultation with the appropriate faculty.

Extenuating circumstances are verified cases of accidents, illness, or other circumstances beyond the control of the student. Withdrawal after the end of the fourteenth week (or 75% of the time the class is scheduled, whichever is less) which has been authorized in extenuating circumstances shall be recorded as a "W."

For purposes of withdrawal policies, the term "appropriate faculty" means the Instructor of Record for each course in question or, in the event the instructor cannot be contacted, the department chair or equivalent faculty officer.

The "W" shall not be used in calculating units attempted nor for the student's grade point average.

"W's" will be used as factors in progress probation and dismissal.

A "W" shall not be assigned, or if assigned shall be removed, from a student's academic record, if a determination is made that the student withdrew from the course due to discriminatory treatment or due to retaliation for alleging discriminatory treatment or that the student withdrew because he or she reasonably believed that remaining in the course would subject him or her to discriminatory treatment or retaliation for alleging discriminatory treatment.

A student may not withdraw and receive a "W" symbol on his or her record more than three times for enrollment in the same course. A student may enroll again in the same course after having previously received the authorized number of "W" symbols in the same course, if a designated college official approves such enrollment after review of a petition filed by a student.

MW - Military Withdrawal

The MW symbol may be used to denote military withdrawal.

"Military Withdrawal" occurs when a student who is a member of an active or reserve United States military service receives orders compelling a withdrawal from courses. Upon verification of such orders, a withdrawal symbol may be assigned at any time after the period established by the governing board during which no notation is made for withdrawals. The withdrawal symbol so assigned shall be a "MW."

Military withdrawals shall not be counted in progress probation and dismissal calculations. "MW" shall not be counted for the permitted number of withdrawals. The District shall refund the entire enrollment fee unless academic credit has been awarded.

EW - Excused Withdrawal

The EW symbol may be used to denote excused withdrawal.

"Excused Withdrawal" occurs when a student must withdraw from a course or courses under circumstances beyond their control. Upon verifiable documentation (i.e., job transfer, illness of family member, incarcerated student, subject to immigration action, chronic or acute illness, accident or natural disaster) a student may petition for an "EW" non-evaluative symbol.

Excused withdrawals shall not be counted in progress probation and dismissal calculations nor shall it be counted towards the permitted number of withdrawals or counted as an enrollment attempt.

The student with an approved "EW" grade may file a petition with the District requesting a refund of the enrollment fee unless academic credit has been awarded or they received the California College Promise Grant or a waiver of fees from AB19 funds.

Pass/No Pass Option

(LACCD Administrative Procedure 4232)

You may receive a P or NP grade only for those credit courses that have been identified by the faculty as being eligible for Pass/No-Pass grading. This includes credit courses that are graded exclusively on a Pass/No Pass basis and courses that allow students the choice of earning a Pass/No Pass grade or a letter grade. All other credit courses must be completed with a letter grade. Pass/No Pass grades are not counted in the GPA. For courses for which a student has a choice of grading method, the student must request the grading method change by the last day of the academic term. Letter grades are not awarded for noncredit courses, but may be graded on a Pass/No Pass/Satisfactory Progress basis.

To request Pass/No Pass, complete the petition (laccd.edu/Students/Documents/Pass%20No%20Pass%20Petition.pdf) and submit to Admissions and Records at admissions@lacitycollege.edu. In order to earn a passing grade, students must satisfactorily complete the coursework at the level of a letter grade of C or higher.

Recording of Grade

A student who is enrolled in a course on the "Pass/No Pass" basis shall receive both course and unit credit upon satisfactory

completion of the course. Satisfactory completion is equivalent to the grade of "C" or better. A student with unsatisfactory performance will be assigned a "No Pass" grade.

Grade Point Calculation

Units earned on a "Pass/No Pass" basis shall not be used to calculate grade point averages. However, units attempted for which the "NP" (No Pass) symbol is recorded shall be considered in probationary and dismissal procedures.

Conversion to Letter Grade

A student who has received credit for a course taken on a "Pass/No Pass" basis may not convert this credit to a letter grade.

Grades and Grade Changes

(LACCD Administrative Procedure 4231)

The Instructor of Record for the course shall determine the grade to be awarded to each student. The determination of the student's grade by the instructor is final in the absence of mistake, fraud, bad faith, or incompetency. For purposes of this section, "mistake" may include, but is not limited to, clerical errors and errors made by an instructor in calculating a student's grade. The removal or change of an incorrect grade from a student's record shall only be done upon authorization by the Instructor of Record for the course, or upon authorization by the College President upon the conclusion of the grade grievance process.

In the case of fraud, bad faith, or incompetency, the final determination concerning removal or change of grade will be made by the College President.

No grade may be challenged by a student more than one year from the end of the term in which the course was taken absent extenuating circumstances; if a college's academic senate has determined that extenuating circumstances apply, then that period of time during which grades may be challenged should be more than one year, and such longer period shall apply at that college.

Academic Renewal

(LACCD Administrative Procedure 4240)

Academic renewal is a process intended to facilitate transfer, degree and certificate completion, and removal from academic probation or academic disqualification. You must meet with a counselor and complete an academic renewal petition. A maximum of 30 semester units may be disregarded under this policy. Final approval of the petition will be granted by the Vice President of Student Services or designee. Academic renewal is irreversible.

You may petition to have your academic record reviewed for academic renewal of substandard academic performance under the following conditions:

1. Coursework to be disregarded is limited to "D" and "F" grades in courses not subsequently completed with a "C" or better at the LACCD colleges.
2. In order to qualify for academic renewal, the student must have completed a minimum of the equivalent of 12 semester units with a 2.0 GPA at any United States regionally accredited institution(s) at any time after the semester or session of the coursework to be disregarded.

- At least one (1) semester must have passed since the semester or intersession term when the coursework to be disregarded was completed.

If granted, academic renewal shall result in:

- Eliminating up to 30 semester units of coursework taken within the Los Angeles Community College District from consideration in the student's cumulative grade point average, and
- Annotating the student academic record to note which courses have been removed through academic renewal. Academic renewal actions are irreversible.

Graduation honors and awards are to be based on your cumulative grade point average for all college work attempted.

Academic renewal procedures may not conflict with the District's obligation to retain and destroy records or with the instructor's ability to determine a student's final grade.

Contact the Academic Counseling office or download an Academic Renewal petition at: lacitycollege.edu/Academics/Counseling/documents/Fillable-Forms/LACC-Academic-Renewal-Form_2022.pdf

Auditing

(LACCD Board Policy 4070)

Students may be permitted to audit a class under the following conditions:

- Payment of a fee of \$15 per unit. Students enrolled in classes to receive credit for ten or more semester units shall not be charged a fee to audit three or fewer semester units per semester. This fee structure is subject to change.
- No student auditing a course shall be permitted to change his/her enrollment in that course to receive credit for the course.
- Priority in class enrollment shall be given to students wanting to take the course for credit.

Email to: admissions@lacitycollege.edu.

Repeatable Courses

(LACCD Administrative Procedure 4225, 4227, 4228)

Certain courses in the college catalog may be repeated for additional unit credit. These courses, marked "RPT" in the "Credit Courses" section of this catalog, allow the student to build on skills and proficiencies by supervised repetition and practice within class periods.

Limits on Active Participatory Courses

Active participatory courses which do not fall under sections 1, 2, and 3 above are not repeatable. Students may not enroll in active participatory courses in physical education, visual arts, or performing arts that are related in content more than four times. This enrollment limitation applies even if the student receives a substandard grade or "W" during one or more of the enrollments in such a course or petitions for repetition due to extenuating circumstances.

Submit a Repeated Class Petition to Admissions and Records at to request grades of D or F be removed from your grade point calculation when you have repeated the class. Only classes repeated within the Los Angeles Community College District are eligible.

Repeat Class Petition: lacitycollege.edu/Admissions/Admissions-Records/documents/Repeat-Petition.pdf

Email to: admissions@lacitycollege.edu

Conditions to Repeat a Course

(LACCD Administrative Procedure 4225)

Course Repetition to Remove a Substandard Grade

Students may repeat courses in which substandard grades ("D", "F" or "NC", "NP") were awarded provided they have not already attempted the same course three times.

When course repetition under this section occurs, the student's permanent academic record shall be annotated in such a manner that all work remains legible, ensuring a true and complete academic history.

For the first and second repetitions of a course where a substandard grade was awarded, the highest grade earned shall be used when computing the student's cumulative grade point average.

Students who have received three substandard grades for the same course may repeat it one more time upon approval of a filed petition documenting extenuating circumstances. Extenuating circumstances are verified cases of accidents, illness, or other circumstances beyond the control of the student.

Duplicative Credit

Duplicative credit in non-repeatable courses should not be used towards the 60 units required for graduation regardless of whether or not the student petitioned to have the transcript annotated.

Repetition of Courses In Which a Satisfactory Grade Was Recorded

- Repetition of courses for which a satisfactory grade ("A", "B", "C", "CR", "P") has been recorded shall be permitted only upon advance petition of the student and with the written permission from the College President, or designee, based on a finding that extenuating circumstances exist which justify such repetition. At the student's option, the previous grade for the course repeated may be disregarded in calculating the student's GPA. Only one repetition for a course due to extenuating circumstances is permitted.
- Repeating a course due to significant lapse is permitted if the college has established a recency prerequisite for a course or program, or an institution of higher education to which a student wishes to transfer has established a recency requirement that the student cannot satisfy without repeating the course (defined as no less than 36 months since the most recent grade was awarded). At the student's option, the previous grade for the course repeated may be disregarded in calculating the student's GPA.
- When such repetition is necessary for a student to meet a legally mandated training requirement as a condition of continued paid or volunteer employment, such courses

may be repeated for credit any number of times, and the grade received each time shall be included for purposes of calculating the student's grade point average.

- d. Students may repeat a cooperative work experience course any number of times as long as they do not exceed the limits on the number of units of cooperative work experience set forth in Title 5 Section 55253(a).
- e. Students may petition to repeat a course needed for employment or licensing because of a significant change in the industry or licensure standards.
- f. Students with verified disabilities may repeat a special class for students with disabilities any number of times when an individual determination verifies that such repetition is required as a disability-related accommodation for the student for one of the reasons specified in Title 5 Section 56029.

Course Families

(LACCD Administrative Procedure 4227)

Courses in physical education, visual arts, or performing arts that have related content are grouped into a course family. Students may only take four courses within a course family.

Limitations on Awarding Credit

LACC does not grant credit for courses in which the content duplicates material of a previously completed course or examination for which credit has already been granted. College courses taken may duplicate AP, IB and/or A-Level examinations. Additionally, exams may duplicate each other (for example, an AP or IB exam in the same subject area).

The CSU and UC and their respective campuses govern credit limitations toward the baccalaureate degree. For UC credit limits visit the section "special regulations for courses in specific subject areas" on the UC Transfer Articulation website at ucop.edu/transfer-articulation/transferable-course-agreements/tca-policy/regulations-by-subject-area.html or contact the Counseling Department for more information.

Credit for courses completed inside the United States

(LACC Administrative Procedure 4051)

If you are seeking credit for coursework from other institutions in the U.S., the college must be regionally accredited. You will need to have your transcripts evaluated by the appropriate faculty. Major course requirements for local degrees and certificates of achievement may be substituted or waived solely at the discretion of academic department faculty, provided that the major requirement units do not fall below 18 units for the local degree or 16 units for the certificate of achievement.

Course substitutions need not be stated in the college catalog, student information system, or any other database that houses academic program requirements. Course substitutions for major requirements for Associate Degrees for Transfer may be recommended by academic department faculty but must be reviewed and approved by the college Articulation Officer.

Substitution of coursework required to meet any general education requirements and graduation competency is solely at the discretion of the counseling faculty or Articulation Officer.

Appropriate credit will be awarded when your transcripts are officially verified and when you submit graduation petitions and/or transfer certification. Your official transcripts and/or external exams from other institutions must be sent directly to LACC's Admissions office.

Pass Along Credit

LACC does not award credit posted to a third-party institution's transcript. Credit is only considered from the original institution's official academic record.

Credit for Courses Completed Outside the United States

(LACCD Administrative Procedure 4251)

The intent of this policy is to provide a process for granting LACCD associate degree general education, graduation competency, and unit (elective) credit for course work completed at institutions of higher education outside the United States. This policy does not apply to Associate Degrees for Transfer (ADTs), IGETC, or CSU GE-Breadth. For more information you may refer to LACCD ADT Reciprocity Guidelines, IGETC Standards, CSU Executive Order 1100, or contact the Counseling Department.

1. Students petitioning for credit must provide comprehensive, detailed, course by course evaluation of their transcripts completed by an independent transcript evaluation service approved by the California Commission on Teacher Credentialing.
2. Students may receive credit for the following:
 - a. LACCD General Education Plan, excluding Area B1 American Institutions.
 - b. LACCD Competency Requirement, excluding Reading and Written Expression.
 - c. LACCD unit (elective) credit. There is no maximum on the number of units that may be applied to local associate degrees.
 - d. LACCD Residency Requirement, completing no fewer than 12 units at the college conferring the degree.

Credit for Prior Learning

(LACCD Administrative Procedure 4235)

Credit for prior learning may be earned for eligible courses approved by the district for students who satisfactorily pass an authorized assessment. Authorized assessments may include the evaluation of approved external standardized examinations, Credit for Military Service/Training, student-created portfolios, and credit by examination. To discuss the awarding of credit for prior learning, contact a counselor or the appropriate department chair.

1. Arrange for military transcripts to be sent to LACC Admissions (you can request them at <https://jst.doded.mil>).
2. Submit a general petition to LACC Admissions requesting credit for military service. Students must also include documentation of at least 181 days of active duty performed (e.g., DD214).
3. Using the general petition process, the college will maintain a written record that will clearly indicate that credit has been granted, if appropriate, with the training period shortened proportionately. The student and the VA will also be notified of this process.
4. Transcript Annotation Military credit will be posted on student transcripts.

Student Discipline Procedures

(LACCD Administrative Procedure 5520)

The purpose of this Administrative Procedure is to provide uniform procedures to assure due process when a student is charged with a violation of the Standards of Student Conduct. These provisions do not apply to grievance procedures, student organization councils and courts, or residence determination and other academic and legal requirements for admission and retention. Disciplinary measures may be taken by LACC independently of any charges filed through civil or criminal authorities, or both.

General Policy

Conduct at any of the Colleges and District Office in the Los Angeles Community College District must conform with the laws of the Federal Government and the State of California and District policies and procedures. The Los Angeles Community College District faculty, staff and administration are dedicated to maintaining an optimal learning environment; the standards of behavior as outlined in Board Policy 5500 ("Standards of Student Conduct") are essential to the maintenance of a quality college environment. These standards apply to all current students on campus, or other college property or while attending any college-sponsored classes, activities or events. Violation of such laws, policies, rules and regulations or behavior adversely affecting suitability as a student, will lead to disciplinary action. Former students may also be disciplined for violating the District's standards of behavior or other college property or at a college-sponsored activity or event.

Disciplinary Action

The College may take appropriate disciplinary action in response to student misconduct as defined by the violation of the Standards of Student Conduct.

Disciplinary measures may be taken by the college independent of any charges filed through civil or criminal authorities, or both. In August 2020, these new Title IX regulations went into effect. To be compliant with the new regulations, LACCD adopted a new Administrative Regulation (C-15) to respond to Title IX complaints that meet specific criteria.

Filing a complaint

To address Title IX issues, LACCD has designated a Title IX and Deputy Title IX Coordinators who are specially trained to work with individuals who report gender-based discrimination and sexual misconduct and provide information about resources, support services, and procedural options. To make a report about a specific incident, please contact the Deputy Title IX Coordinator below assigned to your college or site within the District.

Employees, students, or other persons acting on behalf of the District who engage in Prohibited Discrimination, Unlawful Harassment, or Sexual Misconduct as defined in the Administrative Regulations related to this policy or by state or federal law shall be subject to discipline, up to and including discharge, expulsion, or termination of contract.

Academic Freedom

(LACCD Board Policy 4030)

Academic freedom is defined as the freedom to teach, learn, research, and express one’s views without fear of sanction, whether such expression takes the form of speech, writing, electronic communication, or the like, and whether it occurs on campus or off campus. The right to academic freedom, however, cannot be separated from the equally important responsibility, which each

individual has, to uphold the District’s professional ethics policies for faculty, administrators, and staff; and in the case of students, to abide by the District’s Standards of Student Conduct.

The District recognizes that an essential function of education is a probing of received opinions and an exploration of ideas which may cause some students discomfort. However, academic freedom does not permit prohibited discrimination, racist expression, unlawful harassment, or sexual misconduct, nor does academic freedom excuse the perpetuation of racism, sexism, homophobia, or any other forms of bigotry and hate. Finally, the discussion of ideas, taboos, behavior or language which may be intrinsic to the content of courses shall in no event constitute prohibited discrimination, racist expression, unlawful harassment, or sexual misconduct.

Student Grievance Procedures

(LACCD Administrative Regulation E-55)

The purpose of this regulation is to provide a prompt and equitable means for resolving student(s) grievances. In the pursuit of academic goals, the student should be free of unfair or improper action by any member of the academic community. The grievance procedure may be initiated by one or more students who reasonably believe to have been subject to unjust action or denied rights involving their status or privileges as students.

It is the responsibility of the student(s) to submit proof of alleged unfair or improper action. Grievances pertaining to grades are subject to the California Education Code Section 76224(a) which states:

“When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student’s grade by the instructor, in the absence of mistake, fraud, bad faith or incompetency, shall be final”.

This grievance procedure does not apply to the challenge process for prerequisites, corequisites, advisories and limitations on enrollment; alleged violations of sexual harassment; actions involving student discipline; alleged discrimination on the basis of the ethnic group identification, religion, age, sex, color, sexual orientation, physical or mental disability; an appeal for residency decision; the eligibility, disqualification or reinstatement of financial aid; student discipline; freedom of the press; or employee discipline.

The role of the Ombudsperson is that of a facilitator of the grievance process, and not that of an advocate for either the grievant(s) or respondent(s). During the informal resolution stage of the grievance process, the ombudsperson will facilitate informal meetings and discussions that may lead to a resolution of the grievance.

Statue of Limitations

The statute of limitations period for requesting a Grievance Hearing under this regulation is one hundred twenty (120) calendar days after the occurrence of the incident giving rise to the grievance; or one hundred twenty (120) calendar days after the student learns, or should have learned, that the student has a basis for filing a grievance.

For more information about student grievances visit the website at: lacitycollege.edu/Admissions/Admissions-Records/Student-Grievances or send an email to ombudsperson@lacitycollege.edu

Family Education Rights and Privacy Act

(LACCD Administrative Procedure 5040)

The Family Educational Rights and Privacy Act (FERPA) affords students the following rights with respect to their educational records:

1. The right to inspect and review the student's education records which includes discipline records, within 45 days from the date the College receives a request for access.

Students may submit to the College Admissions Office written requests that identify the specific record(s) they wish to inspect. Within 45 days, the College Admissions Office will make arrangements for access and will notify the student of the time and place where the records may be inspected.

Education records are those records that are directly related to students and are maintained by the College. Students may not inspect education records pertaining to parents' financial records and certain confidential letters or recommendations.

2. The right to request an amendment of the student's educational records which the student believes to be inaccurate, misleading or otherwise in violation of the student's privacy rights.

With the exception of grade grievances, which are handled through Administrative Regulation E-55, students may ask the College President, or his/her designee to amend a record that they believe is inaccurate, misleading, or in violation of their privacy rights. A student seeking to amend an educational record should write to the College President and clearly identify the part of the record he/she wants changed, and specify why it is inaccurate, misleading, or in violation of his/her privacy rights.

If the College President, or his/her designee, decides not to amend the record as requested by the student, the College, in accordance with section 99.21 of the Code of Federal Regulations and section 76232 of the Education Code, will notify the student of the decision and of his/her right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA and California law authorize disclosures without consent.

If a student authorizes the release of his/her education record to a third party, he/she shall provide a dated written consent to the College Admissions Office authorizing said release with a specific list of the information to be released.

Federal and California law authorize certain disclosures of personally identifiable information without a student's written consent. One such exception is the disclosure of personally identifiable information to school officials with legitimate educational interests. School officials with legitimate educational interests are employees or agents of the Los Angeles Community College District who need to review educational records in order to fulfill their professional responsibilities.

4. The right to restrict disclosure of personally identifiable information that the College has designated as directory information which may be released without the written consent of the student.

Directory information may be disclosed without a student's consent unless the student has notified the college that he/she does not want all or portions of the directory information

released. To do so, the student must submit the appropriate District form to the College Admissions Office requesting that some or all of the categories of directory information not be released without his/her consent. This form must be submitted in accordance with College policy.

The Los Angeles Community College District has designated the following student information as directory information:

- a. The student's name, city of residence, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most previous educational agency or institution attended by the student;
 - b. Student employee records may be released in order to comply with collective bargaining agreements;
 - c. The names, addresses, and telephone numbers of students or former students may be released to the College Foundation for each college for college-related activities at the discretion of the College President, unless the student or former student has informed the College that such information should not be released. The release of this information is conditioned upon the College Foundation's agreement that such information will be released in accordance with District policy and that information will not be released to third parties;
 - d. At the discretion of the College President, the names, addresses, and telephone numbers of students from the College may be released to heads of private and/or public institutions of higher education, or their designees, for the purpose of providing information to students regarding transfer opportunities to those institutions, unless the student has indicated that such information should not be released. The release of this information will be conditioned upon the institution's agreement that student privacy rights under federal and state law will be protected and that information will not be released to third parties.
5. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

For additional information about Student Records, Directory Information, and Privacy please refer to the LACCD Administrative Procedure 5040.

Free Speech Areas and Campus Access

I. Background

Education Code Section 76120 requires the Board of Trustees to adopt rules and regulations relating to the exercise of free expression by students upon the premises of each Community College campus. This section requires that these rules and regulations include provisions for the time, place, and manner for conducting free speech activities. The Board of Trustees has delegated to the Chancellor the responsibility for developing and implementing the required free speech rules and regulations on each LACCD campus.

The Chancellor, or his/her designee, shall work with each College President to identify campus areas available for student expressive activity and to develop the required time, place and manner regulations applicable to the exercise of free expression by students. In addition, the College President at each College shall identify a portion of his/her college campus as a Free Speech Area(s), and develop appropriate regulations to govern the use of such area(s). The identified Free Speech Area(s) is/are areas available to all persons for First Amendment activities, including the distribution of free literature or materials, and obtaining petition signatures.

The purpose of these regulations is to foster free speech, assembly, and other expressive activities, while addressing the need of each Community College campus to make necessary arrangements to assure that such activities do not interfere with the College's mission and operations or with the rights of others. Accordingly, these regulations are intended to facilitate peaceable assembly, the expression of ideas and opinions, and the distribution of materials, while ensuring the safe, orderly and peaceful flow of College business and activities.

Each campus shall have copies of this Administrative Regulation, copies of the campus time, place and manner regulation, and copies of the campus map identifying the FSA(s) and areas available for student expressive activity on hand at all times. Copies of this Administrative Regulation, the campus map, and the campus regulation shall be provided to persons seeking to use these areas.

II. Accessing the Free Speech Area(s)

The location of the Free Speech Area(s) on each College campus is/are identified on the College's campus map. The Office of Student Services or similar office is also identified on the campus map. A copy of the campus map is available online on each College's website. Any visitor (defined as any persons unaffiliated with LACCD) seeking access to a College's Free Speech Area(s) shall first report his/her/their presence to the Office of Student Services, or similar office, identified on the campus map. Associate Degrees

Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T)

The Associate in Arts for Transfer (AA-T) and the Associate in Science for Transfer (AS-T) are for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees are guaranteed priority consideration for admission to the CSU system, but not necessarily to a particular campus or major.

Students transferring to a CSU campus that accepts the AA-T or AS-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree, unless the major is designated as a high-unit major.

Students intending to transfer to a particular CSU campus or a university that is not part of the CSU system should consult with a counselor for more information on university admission and transfer requirements.

Requirements:

(LACCD Administrative Procedure 4100)

The following is required for all AA-T and AS-T degrees.

1. Minimum of 60 CSU transferable semester units.
2. Minimum grade-point average (GPA) of at least 2.0 in all CSU transferable coursework. While a minimum of 2.0 is required for admission, some majors such as impacted majors may require a higher GPA. Consult with a counselor for more information.
3. Completion of a minimum of 18 semester units in an ADT major. All courses in the major must be completed with a grade of "C" or better or a "P" if the course is taken on a "Pass/No Pass" basis.
4. Completion of the California State University General Education-Breadth (CSU GE-Breadth) or Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Degrees Offered:

For a complete list of transfer degrees please see page 60 of this catalog.

Associate of Arts (AA) and Associate of Science (AS)

Associate of Arts (AA) and Associate of Science (AS) degrees are for students who wish to complete an associate degree and begin a career. The awarding of an associate degree symbolizes a successful attempt on the part of the college to lead students through patterns of learning experiences. Among these are the ability to think and to communicate clearly and effectively both orally and in writing, to use mathematics, to understand the modes of inquiry of the major disciplines, to be aware of other cultures and times, to achieve insights gained through experience in thinking about ethical problems, and to develop the capacity for self-understanding.

Requirements:

(LACCD Administrative Procedure 4100)

The following is required for all AA and AS degrees:

1. Minimum of 60 semester units in a selected curriculum.
2. Minimum grade-point average (GPA) of at least 2.0 or better in all work attempted in the curriculum upon which the degree is based.
3. Completion of at least 18 semester units of study in a major or area of emphasis. Each course counted toward the major requirements must be completed with a grade of "C" or better or a "P" if the course is taken on a "pass/no pass" basis.
4. Completion of 18-21 semester units of study in the LACCD General Education Plan. (refer to page 53 for more information)
5. Students must complete no fewer than 12 units at the college conferring the degree. Exceptions to residence requirements for the associate degree may be made by the governing board when it determines that an injustice or undue hardship would be placed on the student.

Degrees Offered:

For a complete list of transfer degrees please see page 60 of this catalog.

General Education for Associate Degrees

The Purpose and Philosophy of General Education

Central to all associate degree programs at LACC, general education prepares students to be successful in a dynamic, complex, and multicultural world.

Students who complete general education at LACC will:

- Gain a broad comprehension of the development of knowledge, practice, and interpretive approaches in the arts and humanities, natural sciences, mathematics, and social and behavioral sciences
- Possess the essential academic skills of critical and creative thinking, oral and written communication, quantitative reasoning, and information competency
- Be ethical, self-aware, and productive citizens with an appreciation of aesthetics, cultural diversity, and global issues
- Develop skills and abilities that can be applied to subsequent coursework, employment, and all other aspects of their lives.

Types of General Education

(LACCD Administrative Procedure 4100)

You may complete one of the following general education plans that best fits your program of study:

LACCD General Education

Required to complete the Associate of Arts (AA) and Associate of Science (AS) degrees. This plan is for students who wish to complete an associate degree and begin a career.

California State University General Education Breadth (CSU GE-Breadth and CSU GE-Breadth for STEM)

This plan is for students who intend to transfer to CSU, but can be used to meet the general education requirements for any associate degree offered by LACC. This CSUGE meets the general education requirements for Associate in Arts for Transfer (AA-T) and the Associate in Science for Transfer (AS-T) degrees. Currently the CSUGE for STEM may only be used for the Biology AS-T degree.

Intersegmental General Education Transfer Curriculum (IGETC and IGETC for STEM)

This general education plan may be used to meet the general education requirements for any associate degree offered by LACC, and provides the greatest flexibility for students who want to keep their options open before making a final decision about transferring to a particular CSU or UC campus. IGETC is a general education plan that community college transfer students can use to fulfill lower-division general education requirements at either the CSU or UC system without the need, after transfer, to take additional lower-division general education courses. Currently, IGETC for STEM may only be used for the Biology AS-T degree. If you intend to transfer to a CSU campus, you must complete IGETC Area IC.

(NOTE: Some students may be better served by taking courses which fulfill the UC-breadth requirements or those specific major requirements of the UC campus or college to which they plan to transfer. Students pursuing majors that require extensive lower division major preparation may not find the IGETC option appropriate. Consult with a counselor).

Interstate Passport®

Some colleges accept the Interstate Passport®, a block transfer of lower-division general education. As a member of the Interstate Passport®, LACC has agreed to a predefined set of learning outcomes and identified the courses that develop foundational skills, knowledge of concepts, and crosscutting skills. Foundational skills include the learning outcomes required to satisfy lower-division general education requirements in oral communication, written communication, and quantitative literacy. For a list of colleges and universities that accept the Interstate Passport please visit the following site: interstatepassport.wiche.edu. Please consult with a counselor for more information.

Other Considerations for the LACCD General Education Pattern

(LACCD Administrative Procedure 4100)

Written and Math Competency Requirements

Continuing students with catalog rights from prior to Fall 2019 who place into any transfer-level math course have met math competency for all associate degrees. Students admitted Fall 2019 or later may meet competency by verifying earning a grade of C- or higher in Algebra 2 or equivalent or higher at a US regionally accredited high school or college, or through other means as defined below.

The competency requirements for all associate degrees are met by the following criteria:

1. Mathematics Competency

The competency requirement in mathematics for the associate degree may be met by completion of any of the following:

- a) Verification of passing with a grade of C or P or higher any course from a California Community College with a California Community College Chancellor's Office (CCCCO) Course Basic (CB) Code of "One Level Below Transfer" or higher with a TOP code beginning with 17.
- b) Verification of passing with a grade of C- or higher a mathematics course at or above the level of the course typically known as Intermediate Algebra or the equivalent from any United States regionally accredited secondary or post-secondary institution.
- c) Verification of passing with a grade of C or P or higher a California Community College course that meets the California State University General Education Breadth (CSUGE Breadth) requirement in Area B4: Mathematics/Quantitative Reasoning and/or the Intersegmental General Education Transfer Curriculum (IGETC) in Area 2A: Mathematical Concepts and Quantitative Reasoning.
- d) Achieving a satisfactory score (using a DAS-approved scoring-method) on a DAS-approved District Mathematics Competency Examination.
- e) Achieving a satisfactory score on an external examination (such as, but not limited to an Advanced Placement Exam) as specified in LACCD Administrative Procedures.

2. Written Expression Competency

The competency requirement in written expression for the associate degree may be met by completion of any of the following:

- a) Verification of passing with a grade of C or P or higher freshman composition course from any California Community College or the equivalent from any United States regionally accredited institution with a grade of C- or higher.
- b) Verification of passing with a grade of C or P or higher a California Community College course that meets the California State University General Education Breadth (CSUGE Breadth) requirement in Area A2: Written Communication and/or the Intersegmental General Education Transfer Curriculum (IGETC) in Area 1A: English Composition.
- c) Achieving a satisfactory score on an external examination (such as, but not limited to an Advanced Placement Exam) as specified in LACCD Administrative Procedures.

IGETC for STEM

IGETC for STEM may only be used by students who are applying for majors in which the Transfer Model Curriculum (TMC) explicitly indicates the availability of such option.

Students transferring to a CSU with a completed IGETC will still need to complete 9 semester units of upper-division general education (GE) after transfer and may be held to other campus specific graduation requirements outside of general education and major coursework. CSU students who transfer using IGETC for STEM will need to complete 6 semester units of lower-division GE and 9 units of upper-division GE after transfer. UC students who transfer using IGETC for STEM will need to complete 6 semester units of lower-division GE and Area 6A (LOTE) after transfer.

Students who do not transfer to the CSU, but meet all of the major requirements for the ADT and the IGETC pattern, are exempt from completing IGETC Area 1C: Oral Communication and thus are eligible to earn a local associate degree (approved at District Academic Senate, 12/12/2019).

How to Certify General Education Requirements for Transfer

CSU GE-Breadth Certification

CSU GE-Breadth certification is the process by which the community college verifies that a student has completed all the required coursework for the CSUGE pattern (partial completion is possible for each Area), which is sent directly to the transfer institution. If CSU GE-Breadth is not certified, students will be subject to the lower-division general education requirements at the campus to which they transfer. CSU GE-Breadth certification shall be completed by the Counseling department and approved/signed off by the appropriate counseling faculty.

IGETC Certification

IGETC certification is the process by which the community college verifies that a student has completed all the required coursework for the IGETC pattern, which is sent directly to the transfer institution. (Partial completion is possible if the student is missing up to two courses or subject areas.) If IGETC is not certified, students will be subject to the lower-division general education requirements at the campus to which they transfer. IGETC certification shall be completed by the Counseling department and approved/signed off by the appropriate counseling faculty.

How to Receive an Associate Degree

If you are applying for an Associate Degree (AA/AS) or Associate Degree for Transfer (AA-T/AS-T), we recommend you see a counselor to review your progress towards your completion.

NOTE: You may submit petitions to evaluate progress towards the completion of degrees, certificates, IGETC and/or CSUGE certification, and the WICHE Interstate Passport through the online Student Information System (SIS) portal at: Academics Menu >> My Academics >> Petition for Graduation

Additional and Concurrent Associate Degrees

(LACCD Administrative Procedure 4100)

Additional Associate Degrees

Students who have previously earned an associate degree or higher from a United States regionally accredited institution will be granted an additional associate degree when the following requirements have been met:

Pursuant to catalog rights, described herein, completion of all current degree requirements— i.e., scholarship, residency, competency, general education, and major requirements.

Major course requirements completed in previous degrees awarded can be used again for additional degrees. See AP 4051 Acceptance and Evaluation of External Coursework

There is no limit to the number of additional associate degrees that can be awarded provided that all the above requirements have been met.

Completion of any additional requirements, including new units, as determined by the college.

Concurrent degrees

Concurrent degrees are degrees awarded in the same semester. Students may petition and be awarded concurrent associate degrees in different majors if the following criteria are met:

Pursuant to catalog rights, described above, completion of all current degree requirements: scholarship, residency, competency, general education, and major requirements.

There is no maximum number of concurrent degrees that a student may be awarded.

If a course is a major requirement for each concurrent degree, it may be applied toward satisfaction of each major degree requirement.

Completion of the General Education requirements for one associate degree will fulfill the general education requirements for additional and concurrent degrees, if the same general education pattern applies to the additional or concurrent degree. If each degree requires the completion of different general education patterns, the general education pattern of each degree must be fulfilled. Courses may be applied toward the general education requirements for each additional or concurrent degree.

Transfer

Transfer to the California State University (CSU)

Students intending to transfer to a California State University (CSU) campus should plan a program that meets the graduation requirements of the specific institution which they plan to attend. Consult the catalog issued by the individual CSU campus for a complete description of the curriculum or meet with an LACC academic counselor.

There are a number of approaches to gaining admittance to a CSU school in a specific major:

1. Completing "The Golden Four" (CSU-GE Areas A1, A2, A3, and B4) and 60 CSU-transferrable units with a minimum 2.0 GPA.

Benefits of this approach are completing the major prep for high unit majors and satisfying the minimum admissions requirements. Note that taking this approach may not satisfy all the requirements for an AA/AS degree and does not guarantee admission to a CSU.

2. Completing an Associate's Degree for Transfer (ADT).

Benefits of this approach are priority consideration and guaranteed admission to the CSU system and receiving an associate's degree. Note that by taking this approach you are not guaranteed admission to a specific CSU campus.

3. Completing the CSU-GE or IGETC for CSU in addition to major prep courses.

Benefits of this approach are that all completed courses will be accepted by the CSU and there is no need to take additional lower-division general education courses after transfer.

4. Completing campus-specific GE requirements.

The benefit of this approach is that all completed courses will be accepted by the specific CSU. Note that by taking this approach you may not be satisfying all requirements for the AA/AS degree and that you are not guaranteed admission to a CSU.

Applicants who are California residents and who have completed 60 to 70 transferable semester units are eligible for admission if (a) they are in good standing at LACC, and (b) have achieved a minimum 2.0 GPA in all transferable college units attempted (non-residents, 2.4 or higher).

CSU Major Requirements

LACC may not offer all coursework required for all majors offered at the California State University campuses. Refer to the appropriate California State University catalog for lower division major requirements. Students are also urged to consult with a counselor for current information and to check assist.org for approved articulated courses.

Transfer to the University of California (UC)

Students intending to transfer to a University of California (UC) campus should plan a program that meets the graduation requirements of the specific institution which they plan to attend. Consult the catalog issued by the individual UC campus for a complete description of the curriculum or meet with an LACC academic counselor.

Minimum UC Transfer Requirements

Regardless of which UC admission path you take, you must meet the following minimum requirements:

- a. Complete the UC general education (“The 7-Course Pattern”)
 - Two transferable courses in English composition (UC-E);
 - One transferable course in mathematical concepts and quantitative reasoning (UC-M);
 - Four transferable college courses chosen from at least two of the following subject areas: arts and humanities (UC-H), social and behavioral sciences (UC-B), physical and biological sciences (UC-S).
- b. Complete 60 semester or 90 quarter units of transferable work with a minimum 2.4 grade-point average (minimum 2.8 G.P.A. for out of state or international students).

All courses must be completed with a grade of “C” or better. Credit is allowed for having completed exams administered by the College Board such as Advanced Placement and International Baccalaureate.

There are a number of approaches to gaining admittance to a UC school in a specific major:

1. Completing minimum UC transfer requirements
Benefits of this approach are completing the major prep for high unit majors and satisfying the minimum admissions requirements. Note that taking this approach may not satisfy requirements for an AA/AS degree and does not guarantee admission to a UC. You may improve your chances for admission by completing an ADT with IGETC for UC (*for some schools) and participating in UC Pathways+.

See admission.universityofcalifornia.edu/admission-requirements/transfer-requirements/preparing-to-transfer/basic-requirements.html for more information.

Completing the IGETC GE for UC in addition to major prep courses.

Benefits of this approach are that all completed courses will be accepted by the UC and there is no need to take additional lower-division general education courses after transfer.

Requirements vary by campus. Visit admission.universityofcalifornia.edu/admission-requirements/transfer-requirements/general-education-igetc/ for more information.

2. Completing UC campus-specific GE requirements.
The benefits of this approach is that all completed courses will be accepted by the specific UC. Note that taking this approach may not satisfy requirements for an AA/AS degree and does not guarantee admission to a UC.

NOTE: You may improve your chances for admission to a specific UC campus by completing a (transfer admission guarantee (TAG). Six of the 9 UCs participate in this guarantee. See a counselor for more information.

Transfer to Private Universities

Transfer admission requirements of private colleges and universities vary, as do course transferability and course credit allowed. You should consult the catalog of your intended transfer institution for specific transfer admission requirements and articulation of courses, including general education, major preparation, and electives. To ensure that you transfer in a timely manner, consult with a counselor or visit the Transfer Center (Student Services Building, 2nd Floor) for further assistance and information. Articulation agreements have been established with many private colleges and universities that allow students to complete the general education and breadth coursework requirements at LACC prior to transfer. Those agreements are found on the Articulation Agreements page at lacitycollege.edu/Academics/Articulation/Articulation-Agreements.

Transfer to Historically Black Colleges & Universities

The Historically Black Transfer Project was developed to offer a clear and seamless student pathway from California Community Colleges to targeted Historically Black Colleges and Universities (HBSUs). By preparing to transfer to the University of California or the California State University systems, you may also be eligible for admissions to targeted HBCUs.

If you complete California State University General Education Breadth (CSUGE) requirements or the Intersegmental General Education Transfer Curriculum (IGETC) with full certification, earn an associate degree and achieve a 2.5 or higher GPA, you are also guaranteed admissions at the junior level to our HBCU partners.

If you have 30 or more CSU or UC transferable units and a minimum 2.5 GPA, you are also guaranteed admissions with full acceptance of transferable units.

HBCUs are typically much smaller in student size than most of the California public institutions. Many classes are taught by professors rather than teaching assistants, in a nurturing and supportive environment. There also tends to be more opportunities for student leadership development.

All of the HBCUs that have partnered with California Community Colleges are private (except for Lincoln University in Missouri). The tuition costs for private HBCUs are typically a fraction of the costs of private institutions in California.

For more information about transferring to a HBCU, cost of attendance, and other campus facts, contact the UMOJA office in AD-108.

Certificates

Certificate of Achievement

(LACCD Administrative Procedure 4100)

A certificate of achievement is issued in a state-approved program designed for students who are looking for instruction with a high degree of specialization. Certificate programs vary in length and may be pursued on a full-time or part-time basis. Career and Technical Education (CTE) certificate programs are usually one-year educational programs that offer courses needed to prepare students for immediate employment. A certificate program is specific, and no course substitution will be permitted unless approved by the appropriate academic department.

Requirements

A “C” (2.0) grade average or better, or a “P” if the course is taken on a “pass-no pass” basis, is required in all courses that are part of the certificate of achievement. The CSU GE-breadth certificate of achievement is exempt from this requirement.

A student may choose to earn a certificate from any college in the LACCD regardless of home college status. While students may meet all requirements for the same certificate at multiple LACCD colleges, as defined by certificate type and major title, only one certificate will be awarded by the LACCD.

Students who have completed the degree requirements for which there is a paired Certificate of Achievement or other State approved and transcribed certificate(s), will be awarded the certificate(s) automatically.

How to Receive a Certificate of Achievement

You may submit a petition to evaluate your progress towards the completion of your certificate through the online Student Information System (SIS) portal where all submissions aggregate in the SIS repository for tracking, data and accountability purposes.

NOTE: You may submit petitions to evaluate progress towards the completion of degrees, certificates, IGETC and/or CSUGE certification, and the WICHE Interstate Passport through the online Student Information System (SIS) portal at:

Academics Menu >> My Academics >> Petition for Graduation

Skills Certificate

Students may use a skills certificate for increased job-related specialization, job advancement, or preparation for new employment. Courses that make up a skills certificate may apply toward a certificate program or associate degree.

Requirements

A grade of “C” or better is required in each course.

OVERVIEW

The Department of Visual and Media Arts provides grounding in fields that engage in the creation and analysis of visual culture, specifically in the allied fields of Animation, Art, Art History, Graphic Design, Journalism, and Photography. Our connected department's disciplines enjoy synergy and collaboration.

Our Art programs prepare students to transfer for upper division study at four-year universities or art schools through Associate of Arts degrees and certificates of achievement. Additional objectives include portfolio preparation and skills training for students who wish to enter into careers in the art, design, and entertainment industries.

Our courses provide a solid foundation in various areas of art. In studio art, we teach drawing, painting, printmaking, ceramics, and sculpture. In commercial art and design, we teach digital art and animation, illustration, graphic design and web design, and storyboarding. Our prize-winning Journalism program invites art students to create for publication, in both print and electronic formats.

The Art Department enjoys a high transfer acceptance rate at prominent university art departments, including those at UCLA, UC Berkeley, USC, and CSULB, as well as at outstanding art schools including Otis Art Institute, CalArts, and Art Center College of Design.

 art@lacitycollege.edu

OVERVIEW

The Department of Visual and Media Arts provides grounding in fields that engage in the creation and analysis of visual culture, specifically in the allied fields of Animation, Art, Art History, Graphic Design, Journalism, and Photography. Our connected department's disciplines enjoy synergy and collaboration.

Art History at LACC supports an interdisciplinary and intercultural approach to art history of all periods and places. We are dedicated to including intersectionality as an approach to understanding art history. By thinking across current categories and boundaries and critically examining art history itself, students are encouraged to question the canon, to rethink the relationships between the periphery and the mainstream, and to practice a socially and politically responsible art history.

OVERVIEW

Everything in the world involves chemistry. The air you breathe, the food you eat, and the blood coursing through your veins all involve chemistry. It involves the snow on the mountains, the gasoline you put in your car, and the batteries used to run your iPad. A background in chemistry is essential to many high-paying, challenging careers in health care, technology, consumer industries, environmental management, and more, including pharmaceuticals, forensic science, food technology, petroleum industry, food technology, cosmetics, and so much more. Chemistry meets a general education requirement for most university majors, particularly for Pre-medical, Pre-Dental, Nursing, Anthropology, Biology, Chemistry, Geology, Physics, and Pharmacy majors.

OVERVIEW

Welcome to the Child Development program. Students wishing to prepare for employment in early childhood programs or other related fields in early care and education and those currently employed may select several alternative patterns of study. The curriculum prepares students to teach or administer programs for young children, including private early childhood programs, public programs such as school district children's centers and Head Start or state preschool programs, infant programs, and school-age before and after-school programs.

Courses allow students to prepare for increasingly higher levels of employment and certification. The programs may prepare the student for the educational requirements of the Department of Social Services Community Care Licensing, the California Child Development Permit, the Associate of Arts degree in Child Development, or the Associate in Science transfer degree in Early Childhood Education.

PROGRAM NOTES

Students beginning their course work for certificates and degrees in Child Development must be aware of the following:

- **Criminal Clearance:** In order to fulfill state licensing requirements for employment in private and public programs, students must receive a criminal clearance to work with young children. Consult with faculty for additional information.
- **Mantoux test:** Some Child Development courses may require students to obtain a Mantoux test for tuberculosis clearance. The college Health Center provides this service. Call ahead to schedule a Mantoux test and reading at 323-953-4000 ext. 2485.
- **In order to complete CH DEV 022/023 Practicum in Child Development I and II, or to work in the field of early care and education, students must show proof of immunization against measles, pertussis, and the flu.**
- **CPR Training:** Employers may require students to take a 15 hour cardiopulmonary resuscitation class. This class covers training on basic first aid for infants and children, CPR techniques, and information on basic health and sanitation procedures.
- **Child Development Training Consortium (CDTC):** When students are ready to apply for the Child Development Permit from the Commission on Teacher Credentialing, visit child-development.org. For assistance, contact a Child Development faculty member.

OVERVIEW

Dental Prosthetic Technology

LACC's Dental Prosthetic Technology program is one of only two California community college programs accredited without reporting requirements by the Commission on Dental Accreditation (CODA) of the American Dental Association (ADA). The program is a member of the National Association of Dental Laboratories (NADL).

Using state-of-the-art equipment, experienced faculty, and hands-on instruction, the program prepares students for a successful career in dental technology. Classes cover basic and advanced prosthodontic designs and techniques, incorporating the applications of analogue and digital technologies. Program components include dental anatomy, the science of dental materials, history, ethics, and lab management. The curriculum is designed to prepare students to pass the Recognized Graduate (RG) exam and the Certified Dental Technologist (CDT) Specialty Exams.

The Dental Prosthetic Technology Associate of Science degree and certificate program are identical except that the degree requires additional general education courses. As part of the program, students will complete certificates of achievement in Fixed Prosthodontics and Removable Prosthodontics.

Entrance into the Dental Prosthetic Technology Program:

The first semester of Dental Technology courses prepares the student for entry into the program. The first semester is open to all students who have a high school diploma or GED. Advisories: General Chemistry and Physics.

To enter the program, students are required to complete DEN TEK 100 (Introduction to the Dental Laboratory) which includes a dexterity exam that is designed to measure hand/eye coordination and perception of three-dimensional objects; DEN TEK 101 (Elements of Dental Technology); and DEN TEK 102 (Dental Anatomy and Terminology) with a grade of "C" or better.

Digital Prosthetic Dentistry

The Digital Prosthetic Dentistry certificate of achievement consists of advanced courses in restorative prosthodontics technology and is open to all students who have successfully completed the Dental Prosthetic Technology certificate of achievement at LACC, similar programs accredited by the Commission on Dental Accreditation (CODA) of the American Dental Association (ADA), or by demonstrating competencies equivalent with the course objectives of DEN TEK 207, 208, and 401.

Immunizations

In order to minimize the potential for the spread of infectious diseases amongst patients and dental personnel, Dental Technology students and staff are highly encouraged to be immunized against and/or tested for infectious diseases such as mumps, measles, rubella, hepatitis B, and tuberculosis. If you have any questions regarding your immunization status or recommended immunizations for health care workers, consult your personal physician. If you would like to learn more about Dental Technology policies and

procedures regarding infection control, you may contact the department at (323) 953-4000 x2500 or 2501, or at dental.lacitycollege.edu

**Dietetic Service Supervisor
Certificate of Achievement**

Major Units: 25

(State Code: 08242; TOP Code: 130620; Academic Plan: C008242D)

The Dietetic Service Supervisor certificate meets the standards of training for dietetic service supervisors as specified by the California Department of Public Health (CDPH). Completion of the certificate qualifies students to work as a food service director in a variety of healthcare settings including skilled nursing facilities. Some responsibilities of a dietetic service supervisor are to supervise employees, assure menu acceptance by clients, and manage food production. Successful completion of the program also qualifies students to take the Certifying Exam for Dietary Managers through the Pathway One Program of the Association of Nutrition and Foodservice Professionals. Most certified dietary managers work in healthcare settings such as nursing homes, long-term care facilities, senior living communities, and hospitals. In these settings, the certified dietary manager is involved in nutrition screening, documentation, and care planning for patients and residents. For additional details, see the Certified Board for Dietary Managers (the credentialing agency for the Association of Nutrition & Foodservice Professionals) website at cbdmonline.org. Students must provide their own transportation to assigned field placement sites. A Mantoux test, health exam, fingerprinting, drug screening, background check, and liability insurance are required for supervised practice courses.

PROGRAM STUDENT LEARNING OUTCOMES

1. Function as an important part of a health care team to treat and prevent disease and administer medical nutrition therapy.
2. Purchase and prepare food in a commercial kitchen.
3. Construct budgets within food service operations.
4. Analyze the nutrient content of a diet using dietary analysis software.
5. Deliver oral presentations educating clients about the connection between food, fitness, and health.

EARTH SCIENCES

Department Chair: Nate Lorentz
 (323) 953-4000 ext. 2691 | SCI 324F
lacitycollege.edu/Departments/Earth-Sciences/Department-Home

OVERVIEW

Earth Sciences is comprised of the diverse disciplines of Earth Science, Environmental Science, Geography, and Geology. We use the scientific method to understand Earth and its inhabitants on numerous spatial and temporal scales. Students will recognize and explain fundamental Earth science principles; obtain data from online, library, and field experiences; and obtain technical vocabulary and skills. Earth Sciences courses are intended for both majors and general education, providing opportunities for students to meet Physical Science and Social Science CSU/UC transfer requirements. Our transfer students are represented at CSU, UC, and private universities throughout California and beyond.

Department resources include ArcGIS software, minerals, rocks, fossils, maps, and access to a district-owned 250-acre ecological reserve.

Geography is best described as a “spatial science” in that it employs the use of maps and spatial analysis to understand the world. Introductory courses explore both physical and human patterns via spatial analysis. These components of physical geography (Earth’s weather, climate, and landforms) and cultural geography (population, migration, culture, and industry) are synthesized in courses on the geography of California, and soon-to-come mapping and fieldwork courses.

Geologists study the solid Earth, including Earth materials, Earth history, and the internal and external Earth processes. Earth scientists study the components of the Earth system and their interactions, including the geosphere, hydrosphere, and atmosphere.

Geography

Associate in Arts (AA-T) Degree

Major Units: 21 Total Units: Minimum of 60
 (State Code: 40897; TOP Code: 220600; Academic Plan: C040897G)

The Associates in Arts in Geography for Transfer degree is designed to meet the minimum requirements for transfer to a California State University (CSU) Bachelor of Arts Degree program in Geography. The transfer degree assures foundational preparation for transfer opportunities at California State Universities as students pursue a degree in Geography or a related field.

The Geography ADT provides students a transfer curriculum focused on the integration of Physical (GEOG 1) and Cultural (GEOG 2) Geographic knowledge with a spatial perspective that is useful in identifying, understanding, and solving problems of local, regional, and global importance. The degree provides students an opportunity to gain experience gathering, analyzing, and displaying spatial data. Field and map courses weave research design and the scientific method to complement the technical skills learned. Both Physical and Social Sciences are integrated into a framework to apply critical Geographic thought.

The Geography coursework complements coursework in the related disciplines of Geology and Anthropology and helps students develop skills that are applicable to a wide range of careers such as: urban/regional planning, natural resource management, cartography/mapmaking, marketing consulting, epidemiological modeling, natural hazard assessment, social science research, and climatology.

Completion of this curriculum will demonstrate commitment to the field and provide comprehensive preparation for further academic study through upper-division course work. This curriculum specifically prepares the prospective transfer student for upper division coursework in Geography or a similar major at a California State University (CSU) campus. Students should consult a counselor, the Transfer Center and the catalog of the transfer college or university to plan a specific program of study to meet the college or university’s requirements.

To earn the AA-T, students must meet the following requirements:

- a. Completion of 60 semester units that are eligible for transfer to the California State University by completing the following:

 business@lacitycollege.edu

OVERVIEW

The Finance curriculum is designed for students who plan to enter entry-level positions in bank telling, bill and account collecting, credit authorizing and counseling, and statistical assisting. In the Finance discipline, we offer two programs of study: an Associate of Arts degree and a certificate of achievement in Finance and Banking. Both paths are designed to give the student an extensive background in the principles and practices of banking and investment in the financial industry. The degree program offers a more comprehensive curriculum than the certificate program and allows the student to transfer to a four-year university where a bachelor's degree can be earned.

Our programs have been identified and included in the Federal Deposit Insurance Corporation's (FDIC) Directory of College and University Degree Programs: <https://www.fdic.gov/regulations/resources/cbi/degree.html>

The directory reflects the importance of community banks to the nation's economy, and presents an opportunity to identify banking degree programs offered by colleges and universities. The directory also aids prospective students in evaluating their educational and career options, and aids community bankers in identifying and hiring talent.

OVERVIEW

The Life Sciences Department's goal is to provide all students the opportunity to explore the science of life and to complete general education requirements in the natural sciences. We also prepare students for transfer to four-year programs in the biological sciences and for acceptance into various allied health programs. This preparation may lead to careers in teaching, nursing, medicine, dentistry, veterinary medicine, pharmacy, physical therapy, physician assistant, and many other fields. We are committed to providing our students with the knowledge and skills necessary for a successful career path and to nurture a life-long curiosity of the natural and biological world.

NURSING

OVERVIEW

The LACC Registered Nursing program leads to eligibility for licensure as a registered nurse (RN). The program is accredited by the California Board of Registered Nursing.

The Associate of Science degree is a two-year full-time program that includes theory and clinical courses. Clinical experiences include the opportunity for students to participate in nursing care and treatments of clients in hospitals and other health care facilities.

Admission to the Program

All students interested in the Nursing Program must first attend a mandatory information session. Prospective students should visit the department website for information. Details on Registered Nursing program standards can be found in the E-10 Guidelines at the LACC Nursing and LACCD websites.

The following are required for entry into the program:

1. Completion of prerequisite courses with a grade of “C” or better, posted on the student transcript. Prerequisite courses include: Anatomy 001 (4 units); Physiology 001 (4 units); Microbiology 020 (4 units); Chemistry 060 (5 units) if the student has not completed one-year of high school Chemistry (two semesters each with a “C” or higher); Psychology 001 (3 units); Psychology 041 (3 units); English 101 (3 units); and Math 125, the equivalent, or higher (5 units). Students must meet a “cut score” of 80% based on college grade point average (GPA), college English GPA, and core Biology GPA. Students are strongly encouraged to complete Communication Studies 101 (3 units), an American Institutions course (3 units), and a Humanities course (3 units) prior to entering the program, as these are required to graduate.
2. Students must take the Test of Essential Academic Skills (TEAS)—a diagnostic assessment test of basic math, English, reading, and science—and achieve a composite minimum average score of 62% on the first attempt or, on a second attempt, a minimum of 62% in all areas after remediation.
3. Submit a Nursing Program application with proof of high school diploma and/or college degree. If students received their high school diploma from a foreign country and/or are requesting equivalency of foreign college credits to fulfill prerequisites, transcripts must be evaluated for equivalency by an LACCD-approved agency.
4. The complete application is reviewed by a selection committee. Should the number of qualified applicants exceed the number of available openings, a simple lottery will be implemented.

NCLEX-RN Exam

Upon graduation, students will be eligible to apply for and take the NCLEX-RN examination. The Board of Registered Nursing may deny licensure on such grounds as being convicted of crime, acts of dishonesty, and fraud or deceit.

The information above may be updated or modified subject to district, state, and/or BRN request. Contact the LACC Nursing Department and visit the LACC Nursing website for additional information.

PHILOSOPHY

Chair: Julio Torres

 philosophy@lacitycollege.edu

OVERVIEW

Too often when we hear the word “philosophy,” the thought of old statues and ancient writings comes to mind. In fact, philosophy is alive and well and critical to our everyday decision-making, as well as the decisions made by businesses, religious institutions, and governments around the globe. Additionally, examining the principles of philosophy helps one become a more ethical and organized thinker. These skills are critical for future managers. The logic skills gained can benefit everyone, especially aspiring lawyers who will need to present well-structured arguments. The Philosophy program empowers students to examine questions about ethics, reality, and knowledge that give them a deeper understanding of themselves and the world in which they live.

POLITICAL SCIENCE

Department Chair: Carlos Guerrero
(323) 953-4000 ext. 2506 | FH 219E
socialsciences@lacitycollege.edu

OVERVIEW

When you study Political Science, you will learn about how political power is distributed, how different governments operate and interact, and how rules are made and enforced. You will explore both the “who” of politics (such as politicians, international organizations, and the public) and the “how” (such as elections, political institutions, and public administration). Politics affects virtually every aspect of our lives, including the availability of education, jobs, housing, and healthcare. Whether countries are at war or at peace depends both on what governments do and who supports them. Studying political science can open up a wide range of job opportunities in the public, private, and not-for-profit private sectors. Students interested in careers in business, education, law, journalism, communications, government, or politics more generally will obtain vital knowledge and skills. Students can also get practical skills by doing co-ops with government or organizations as part of their education experience.

RADIOLOGIC TECHNOLOGY

Department Chair: Julie Washenik
(323) 953-4000 ext. 2942 | RT
radatech@lacitycollege.edu

OVERVIEW

Radiologic Technology is a health care profession whose practitioners work in hospitals, clinics, free-standing imaging centers, and private offices. The radiologic technologist (radiographer) is a member of the health care team who works directly with the patient and the physician, performing a wide variety of diagnostic x-ray procedures.

A career in Radiologic Technology offers vast opportunities for advancement. The radiographer must be proficient in the knowledge of radiographic exposure, anatomy, patient positioning, the operation of specialized equipment, and the care and management of the patient. The rapid expansion of medical diagnostic imaging has greatly increased the diversity and utility of medical diagnosis. Students who complete the curriculum, including the clinical education requirements, will be eligible to take the certification examinations prepared by the American Registry of Radiologic Technologists and the State of California Department of Public Health (CDPH).

The Radiologic Technology curriculum is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT) and the State of California, Department of Public Health. The clinical educational centers are accredited by the Joint Commission for the Accreditation of Health Care Organizations (JCAHO). Los Angeles City College is accredited by the Western Association of Schools and Colleges. How to read a course description

Units

The number of units is based on the number of hours spent inside and outside-of-class.

Lec and Lab

The Lec (lecture) and Lab (laboratory) hours indicate the number of hours spent in class each week during a standard 16-week semester. Students are expected to spend two hours on outside-of-class work for every hour of lecture in class. A modest amount of outside-of-class work may be associated with laboratory courses, though the units awarded are based solely on the work done in class.

Transfer Credit

The transfer credit part of the course description indicates whether the course is articulated and will be accepted for transfer credit at a California State University (CSU) and/or University of California (UC) school. This area also may indicate whether the course satisfies general education requirements for a California State University (CSUGE) and/or University of California (IGETC) school. This part may also indicate whether the course satisfies a specific general education subject area.

The Course Identification (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signifies that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Students can be assured that a course with a C-ID number will be accepted in lieu of a course bearing the same designation at another community college.

Students should also refer to assist.org to confirm how each course will be credited at a particular CSU or UC for transfer credit.

A *prerequisite* is a course or other condition of enrollment that a student is required to complete prior to enrolling in the primary course. A *corequisite* is a course that a student is required to enroll in simultaneously with (or, in some cases, prior to) the primary or corresponding course. An *advisory* is a course that a student is advised, but not required, to take in conjunction with or prior to the primary course.
