

## MODERN LANGUAGES & CIVILIZATIONS

The LACC Modern Languages & Civilizations Department is one of the largest and strongest language departments in Southern California.

Foreign language fluency is an essential skill in the 21st century. One should speak at least two or more languages to be considered globally minded. Not only is learning another language good for personal development, but it also gives students an advantage in many careers.

Our goal is to integrate foreign language and cultural education with technology. We want to deliver courses and information anywhere and anytime with the aid of technology.

Learning a language helps us overcome cultural and social barriers. We are an outstanding group of instructors whose life-long pursuit is to teach their students other languages, other cultures and civilizations.

### Mission Statement

The mission of Los Angeles City College is to promote accessible and equitable learning to benefit the diverse local and global communities we serve. We empower students to achieve their educational and career goals by providing pathways to support their completion of associate degrees, certificates, transfer requirements, career and technical education, and foundational skills programs.
